'I ran to the bed and dropped the curtains, and liked to have fainted at what I saw.'

'And what did you see?' asked the magistrate.

'Master, behind those dark curtains I saw a young creature tossing about the bed, flinging her fair and beautiful arms about, one tearing wildly at the fine lace that trimmed her night dress. But, master, that wasn't what almost made me faint—it was that her right hand was sewed up in black crape, and her whole face and head completely covered with black crape drawn down and fastened securely around her throat, leaving only a small slit at the lips and nose to breathe through.'

'What I take care, woman! remember you are upon your oath!' said the magistrate.

'I know it, master! And so I hope to be forgiven, I am telling you the truth!'

'Go on, then.'

'Well, sir, she was a young creature scarcely past childhood, if one might judge by her small size, and soft rosy skin. I asked her to let me take that black crape from her face and head; but she threw up her hands and exclaimed—

'Oh, no, no, no! for my life, no!'

'Well, master, I hardly know how to tell what followed—' said the old woman, hesitating in embarrassment.

'Go right straight on like a car of Juggernaut, woman! Remember—the whole truth!'

'Well, master, in the next two hours there were twins born in that room—a boy and a girl; the boy was dead, the girl living. And all the time I heard the measured tramping of one of them villains up and down the passage outside of that room. Presently the steps stopped, and there was a rap at the door. I went and listened but did not open it.'

'Is it all over?' the voice asked.

'Before I could answer, a cry from the bed caused me to look around. There was the poor masked mother stretching out her white arms towards me in the most imploring way. I hastened back to her.

'Tell him—no—no,' she said.

(To be continued in our next.)

Special Notices.

$2 per square for first week—$1 per week for continuance.

The assumption of the Douglas Democrats that "popular sovereignty" in the Territories is to become immensely popular with the northern people, and to supersede entirely the now prevalent feeling in favor of freedom, is strangely fallacious. Popular sovereignty in a State, or an organized, settled community, is a strong and well grounded principle, and one which commends itself to the Republican sentiment. But popular sovereignty in a Territory of this union is a very different thing—that is, if popular sovereignty is really meant. It is giving power to a few hundreds of the first squatters to fix the permanent institutions of a future State—and such a claim of power as this will never commend itself to the popular sanction of a reflecting people. Never will a community which desires the prevalence of freedom and free labor accept a creed declaring that the first squatters who may settle a Territory, shall have power to establish and protect an institution which is the sum of all villainies, and which by its despotic and anti-republican tendencies works steadily towards the overthrow of our free institutions. And yet precisely this is the grand and glorious "popular sovereignty" which we are told is to sweep everything before it at the North, to revolutionize parties, and to settle the slavery question entirely. It is a permission for squatters to establish slavery in the free Territories of this nation; And to this all the generous and noble aspirations of the people are to be yielded—if we may trust the predictions of the Douglas democracy. Our belief is that such predictions will never be fulfilled.

REMARKABLE RAILROAD ACCIDENT.—We learn from the Rochester Democrat, the particulars of an accident which occurred on the Williamsport and Elmira railroad, on Friday, January 28th.

Some fifteen miles below the former place, the train passed over a broken rail at the beginning of a curve, dug into the side of a precipice. On the left was a precipitous declivity of seventy-five feet to the river. The engine and baggage-car, went over the gap and kept the track, but the first passenger car, in which was Col. Paine, the Postmaster of Rochester, and seven other gentlemen, unoccupied both front and rear, left the track and started down the precipice. It turned over once and a half in going twice its length, and then brought up against some rocks, where it lay at an angle of about forty-five degrees, with the passengers, and all the fixtures in it, including the stove, in a promiscuous pile at the lower end.

Col. Paine writes that he clung to his seat, and in all the lapping and rolling of the car, never let go his hold. Seeing the hot stove coming down the aisle towards him, he shoved it with his foot, and prevented it from striking those below with as much violence as it would have done. The car took fire before any of the passengers could extricate themselves, but they finally broke through the windows and made their escape. Judge Lyman of Corning, was severely bruised, and Col. Paine fears internally injured.

Andrew Jackson has been arrested in Lowell, for a criminal offence: and Thomas Jefferson, of the same city, has been seriously assaulted. William Shakespeare was recently arrested in Baltimore for stealing sausages.

A car has been running on the night trains between Boston and New York, illuminated with gas. During the nine hours occupied in the trip, says the Boston Ledger, only ten cents' worth of gas is consumed, and the car is lighted up as brilliantly as a parlor.

It is rumored that Dr. B. A. Gould, Jr., of the Dudley Observatory, at Albany, will probably be called to fill the vacancy, caused by the death of Prof. Bond, in the Observatory at Cambridge, Mass.

LOCAL AND MAINE NEWS.

Supreme Judicial Court—Criminal Term.

Cutting J. presiding.

WEDNESDAY, Feb 9th.

The grand jury came in about 11 o'clock, and reported 42 bills of indictment—six or eight of them being liquor cases, and nearly all the balance, for robberies, larcenies, store and house breaking &c. The amount of business presented to the jury had been very large, and the labors of the new County Attorney, Chas. P. Crosby, Esq., very arduous. We learn that his duties as prosecuting officer in the grand jury room were discharged with signal ability and faithfulness.

A bill for manslaughter was found against young Crosby, for the melancholy affair resulting in the death of young Lowell, in the fall of 1858.

A portion of the prisoners were arraigned in the afternoon and severally pleaded not guilty to indictments as follows:

Daniel O'Neil of Bangor, for stealing $21 in bank notes from Nath'l S. Massy.

Melvin Nichols of Bangor, for breaking and entering schr. Andes of Hampden, and stealing therefrom a razor, knife, combs &c., belonging to Thos. Thayer.

Chas. W. Patten of Oldtown, for stealing at Bangor an ox belonging to Bro. Reed.

Patrick Kelley of Bangor for breaking and entering store of Thos. Paine, and stealing goods therefrom.

Timothy Mahony, Morris Herring and John Feeney of Bangor, for breaking and entering in the night time the store of Daniel M. Howard and stealing goods and money therefrom.

Ira B. Reynolds of Bangor, and Jacob Thayer of Charleston, for breaking and entering the store of Solomon Dunning of Charleston, and stealing therefrom an extensive assortment of dry goods, of the total value of $133,67.

Charles Jose and Philemon Bennett of Dexter, on two indictments for stealing cotton shirts and drawers,—stockings linen &c. Rose plead not guilty. Barnett not appearing; his bail was called.

Ira Spencer and Elisem Brown, for breaking and entering store of James Thissel at Milford and stealing 140 lbs of salt pork.

Chas. W. Richardson of Bangor, for stealing wines; chains &c., belonging to Lewis Quero.

Michael Herring was discharged.

In the afternoon the case of Charles W. Patten was taken up, and closed for the government when the Court adjourned.

Mr. Knowles will open the defence this morning.

AN AGGRAVATED ASSAULT. On Tuesday evening, as Mr. Robert Dunning of this city, was returning from Hermon, he met in the road a man named Clark True, with whom he had had some difficulty. The man refused to turn out so that Mr. Dunning could pass, and soon left his sleigh and collared him. Mr. D. at once threw him down and held him—whereupon he drew a dirk-knife and stabbed him, the blow taking effect however only in the arm, just below the elbow. A third person coming up at the moment, the man was disarmed and Mr. Dunning came home. Yesterday morning the case was presented to the grand jury, then about to rise—a bill was found—and the defendant will be likely to obtain justice "speedily and without delay," as guaranteed to him by the Constitution.

A [illegible] OF ARGUMENT. Mr. Jackman who has been confined in jail in this city fourteen months for debt, and lately allowed his freedom, complains bitterly that the man upon whose [illegible] he was incarcerated, should turn him out this bitter cold weather, where he is obliged to earn his own living. He says that he was promised a home for life, unless he paid the debt—that he has not paid it, and he proposes to commence an action against his creditor to compel him to fulfil his agreement, and support him until the debt is paid.

WHAT BECAME OF WILLIAM'S MONKEY.—Our neighbor Low relates with mournful satisfaction the final end and wind up of his monkey speculation. Jocko having eaten his head off in "war" times, it was considered profitable to let him go "at a bargain." Accordingly, William was fortunate enough one day to encounter a countryman who was willing to take him "free gratis for nothing," and he was accordingly quit-claimed over at once.—The new master started for home with his subject of natural history—but had not gone far before he came across a glorious chance for a dicker with another countryman, who was so smitten with Jocko's personal appearance, and being withal, perhaps a little "blue," actually gave a horse and a load of wood for the critter. He then made for home to astonish the women-folks and to make arrangements for opening a menagerie. Jocko was then on the high road to fame, when he suddenly began to kick up all sorts of mischief in the house—biting the wife, and frightening the children—and his master, giving way to his anger, incontinently knocked him on the head with a stick of wood. And that was the end of William's monkey.

☞ A correspondent justly says that the Aldermen's Room would be too small for a meeting of all the native born citizens of Bangor. The petition for the meeting of "Old Settlers" as we are requested to state it, is for all native born citizens over 33 years of age, and all others who have been in the city 33 years. The meeting is to be this evening at the Aldermen's Room.

James Kent, Esq., a well known member of the Cumberland Bar, who was Librarian of the Athenæum and Cashier of the Savings Bank, died on Sunday evening last, at his residence in Portland.

The Brunswick Telegraph gives us the biography of a calf which at seven weeks weighed 231 pounds, and for twelve days after gained two and a quarter pounds a day.

The suit of the Boston and Lowell against the Boston and Maine Railroad, to recover damages on the suit for the diversion of travel over the Salem and Lowell and the Maine Roads to Boston, which has been in court for several years, has just been settled, by the payment of $[illegible]000 by the Boston and Maine to the Lowell line.

A NEW POET.—A brilliant star has appeared in the eastern galaxy. A new poet is at sea. Bangor boasts the nativity of the bard—although to the Philomathean Society of Bangor appears to be due the credit of presenting him to an admiring world in propria persona.

On Tuesday evening Mr. W. B. Maddocks read before that Society and to a crowded audience of applauding citizens his famous poem entitled "*The Origin, Action and Final Destiny of Man!*" Unfortunately for ourself we were not able to be present—but a friend sends us a notice from which we extract:—

"Tuesday evening arrived, and with it Mr. Maddocks. Mechanics Hall was crowded.—It was evident that an era was at hand with the *Muses*. All were eager and expectant, and the thunders of applause that followed the appearance of the poet would have put the Burns Festivals entirely in the shade.—The poet's reputation for originality was emphatically confirmed. We may safely say that there is not a poet in New England stamped with Mr. Maddocks' characteristics, either in poetry or philosophy. But the poem speaks for itself.

In illustration of this fleeting life he says:

> "See Bonaparte and his great armies, and what he tried to do;
> Did he not meet his fate upon the plains of Waterloo?
> And what [illegible] can be heavier,
> Than those he felt at St. Helena?"

And then he "apostrophe" to friendship:

> "Oh, friendship thou art often found
> On a small base and jetting down,
> While many a man is greatly renowned,
> Thinking sympathies thro' that town."

"He speaks of the men who want to annex Cuba in the most sarcastic strains; and says:

"They are the very men who want to sell old Maine!"

But Mr. Maddocks' delivery and gestures must be heard and seen in order to appreciate his poetry. It would be impossible to present his beauties fairly in print,—and we therefore refrain.

After the delivery of the poem there was a Society supper at White's, at which Mr. Maddocks was extensively lionized. Toasts, eulogistic speeches, &c., were showered upon the Bard, like votive laurels. Not the least interesting part of the entertainment was the philosophic remarks of the honored guest, and particularly the rehearsal of an eloquent letter he once wrote to a lady friend.

"The final toast having been given, and Mr. Maddocks, by a unanimous vote, being declared the Poet Laureate of the day, the meeting broke up. The poet was escorted to the hotel, and left with hearty cheering.

"I understand that a call has been extended to Mr. Maddocks, and accepted, to deliver his poem under the auspices of another society in one of the larger halls. If so, "may I be there to see"—and hear. J. W. D."

[It is stated that this poem will be repeated at an "Antique Exhibition," which is in preparation under the auspices of the Managers of the Female Orphan Asylum,—which will probably take place next week.]

Ship Geo. F. Patten, (of Bath,) 67 days from Bristol E. for New York, with 1000 of railroad iron, arrived at St. Georges, Bermuda, 12th ult., in distress, under jury masts, having lost bowsprit, foremast, mainmast just below the top, and mizen topgallant mast, with everything attached, in about lat. 32 lon. 60, while lying to during a heavy gale from the westward.

SOUTH KENNEBEC AG. SOCIETY. The following are the officers chosen for the year ensuing:—

President—J. M. Carpenter, Pittston.

Vice Presidents—F. Glazier, Jr., Hallowell; Wm. Rollins, 2d, Pittston; Josiah True, Litchfield.

Corresponding Secretary—Nathan Foster, Gardiner.

Recording Secretary—Geo. W. Wilson, Gardiner.

Treasurer and Collector—Michael Hildreth, Gardiner.

Board of Trustees—J. M. Carpenter, (ex-officio); D. A. Fairbanks, Gardiner; O. S. Edwards, West Gardiner.

Bark Gen. Taylor arrived at Boston on the 9th bringing Capt. Glover and crew of schooner Marcia Farrow of and from Rockland for New Orleans, which vessel was abandoned on the 4th instant, in a sinking condition.

BUY AT HOME.—The Salem Gazette, in an article under the above head, makes the following excellent suggestions:

"A common mistake, in all the towns surrounding the metropolis, is that of neglecting the mechanics and shop-keepers of their own neighborhood, and bestowing their patronage upon those in the capital, thus favoring and supporting a set of people who do not know, and will never thank them, to the neglect and injury of their neighbors and personal acquaintances. This is usually done without any real benefit to the purchaser, and often as much to his (or her) disadvantage as to that of the town or village shop-keeper. Many a person has paid more for an article in Boston than it would have cost at home; and nothing is more common than to give as much, or about as much, without the advantage of being any better suited than they might be at home.

This, it appears to us, is all wrong. Our shop-keepers and mechanics pay their rents here, sometimes perhaps to the very persons who refuse to patronize them, or to their neighbors and fathers. They pay their proportion of the public expenditure. They perform all the duties of good citizens, and they have a right to expect, that the support which they extend to their neighbors will be reciprocated by those neighbors. A good citizen, who wished well to those by whom he was surrounded, might very well afford to add a trifle to the price he might pay, rather than to seek the profits of his custom, whatever they might be, away from those who have upon him the claims of fellow-citizenship."

SPURGEON'S WIT.—Spurgeon sometimes gets off a good thing out of the pulpit. A London letter to the Portland State of Maine says:—"A brother minister called to see him one day, rang the bell, and when the servant came to the door, the Rev told him to inform Mr. S. that a servant of the Lord wished to have an interview with him. The message was delivered to Mr. Spurgeon. 'I am, be, servant of the Lord—tell the person I can't see him, I am very busy with his master.'"

Society is busy with the marriage of the youngest son of Baron James de Rothschild. M. Gustave de Rothschild is about to marry a beggar, comparatively, for the bride has only a dowry of $640,000, a mere trifle, which would not furnish a drawing room in the fashionable style of the present day.

THE LAST ISSUE.—THE REPUBLICAN PARTY—ITS DUTY AND ITS FUTURE. The recent speech of Hon. Israel Washburn of Maine, upon the present aspect of parties and politics, is full of sound and wholesome truths, which ought to be well considered by every friend of free institutions. The effort so industriously put forth in certain quarters to demoralize the Republican party, by lowering the standard of its principles so as to make them harmonize with other diffuse and floating elements of opposition to the Administration, meets with a just rebuke from the direct and positive logic of the speech. The idea of seeking to gain strength by an abandonment or compromise of principle is as absurd as it is suicidal. Do this and the party dies. Take away its principles, and you eat out its heart. The object of success is not a mere nominal victory; it is the triumph of principle. The value of success is destroyed, if it be purchased by the sacrifice of the object.

The broad issue dividing the two great political organizations of the country is clearly defined in the opening paragraphs of Mr. Washburn's admirable speech, which we subjoin. In the view of the case therein presented, any departure from the Republican idea, for the mere purpose of achieving a victory over the Administration party, would be a base surrender, or exchange of enduring principles for a brief and profitless lease of political power.—*Ohio State Journal.*

MR. WASHBURN'S SPEECH. We give a large portion of our columns to-day to the publication of an able speech from Mr. Washburn, of our State. We trust it will receive an attentive perusal from our Republican readers.—Agreeing as we do, generally in the positions taken by Mr. Washburn, we are naturally anxious that they should be fully understood.—We are as desirous as any person can be for success, which now seems attainable, in the next Presidential contest, but we are equally certain that success cannot be obtained by any lowering of the standard of Republican principles. There is nothing in the Republican principles which may not be adopted by any man in the Southern as well as in the Northern States. If men in the Southern States desire the overthrow of this present Lecompton administration, let them unite themselves to the Republican party, and not let them expect to exact terms of union. The Republican party in itself is a power; it is destined to succeed, if it continues faithful to the great purposes for which it was organized. If it falters, tampers with, and strikes hands with men who have no other sympathy with its principles than a common desire to overthrow a wicked administration for the sake of the spoils, it will go down, as it ought, and another party, as Mr. Washburn says, more faithful to the principles of liberty will arise upon its ruins.—*Biddeford Union and Journal.*

THE FIRE IN BOSTON.—There is not a shadow of doubt that the fire in Boston on Sunday morning, which consumed the great Steam Bakery, together with several buildings in its vicinity, destroying upwards of 20,000 barrels of flour and killing one man, was the work of an incendiary. The Courier states:

"It is well known that a strong feeling of competition has arisen on the part of the different baking establishments in the city, against the making of bread by machinery, by means of which the cost is considerably diminished. Apprehensions have been entertained by Mr. Russell and others, that some lawless persons might take this method of putting out of the way this rival upon their business. That the fire is a piece of incendiarism is confirmed by a strong chain of circumstances. Powder had been found mingled with the coal. No coal had been used in the furnaces for some days without being previously saturated with water. The yeast boiler has twice collapsed; malicious persons while visiting the establishment, apparently to witness the operation of the machinery, having screwed down the safety valve. A valuable watch dog kept in the premises has been missing since Friday. Yesterday morning he returned. On Saturday morning the key of the street door leading to the bakery, was stolen.

To provide against all accident Mr. Russell has kept one watchman in the building, day and night. Saturday night he felt peculiarly apprehensive, on account of the circumstances of the two preceding days, and did not leave the building until nearly one o'clock on the morning of the fire. His last act was personally to go through the whole building to satisfy himself that all was right. He bolted all the doors on the inside, so that no one could get in from the street. When he went away he gave particular directions to the engineer and firemen, who had agreed to stay in the building, to exercise a special vigilance against accident. He then went home having previously locked the street door.

A short time afterwards the men who remained, heard a noise in the third story.—They immediately rushed to ascertain the cause. They found upon some boxes piled up around a post, a basket of shavings with a jet of gas turned into it, and lighted. The flames had been communicated to the floor above the burning basket. Being directly above the oven, the wood had become thoroughly seasoned, and burned like tinder.—They seized the burning basket and threw it through the open scuttle into the cellar, which is fire proof. After reaching the cellar, it bounded under a flight of stairs, setting them on fire. They discovered at the same time, both their inability to extinguish the fire, in this place, and the flames extending from the burning stairway to the cellar. An alarm was instantly given, to which the fire department promptly responded.

Mr. Russell, who had scarcely arrived at his residence in Temple street, hearing the alarm, and seeing the light in that direction, hastily returned to the store. He found the front door open, which he had locked but a short time before, and the key of which he had in his pocket. He also found some of the doors within, which he had fastened, open. A few minutes before his arrival two men were seen to leave the building, and run up Commercial street."

UNITED IN DEATH.—A few days since, was seen in Portsmouth, Ohio, the solemn spectacle of a funeral, in which were two hearses in succession, bearing to their last resting place the remains of a husband and wife, after a pilgrimage together of forty-five years. The husband was Mr. Richard Fitzgerald, at the age of 87. He died in the house which his grandfather built, and in which he and his mother were born, and, until the last week of his life, he occupied the rooms which were his birth-place, and that of his mother. He never entered a rail car, or a stage coach in his life.

The fallacy of some popular prejudices is illustrated by the circumstance that twenty-six years ago, when it was proposed to light the city of Philadelphia with gas, several hundred of the citizens, including some of the most intelligent and wealthy, sent a remonstrance against the project to the City Council, declaring it "a most inexpedient, offensive and dangerous mode of lighting." Among the remonstrants was the present engineer of the gas works!

There are in Massachusetts two hundred and ninety-four factories, with a capital of thirty-two millions of dollars, and one and a half millions of spindles, which put into the market, manufactures thirty-four millions of dollars worth, annually.

VERY WELL.—A young lawyer of Philadelphia, wrote to an old friend near Chicago, thus: "Is there an opening in your part of the country that I can get into?" Answer: "There is an opening in my back yard about thirty feet deep, no curb around it. If it will suit, come on." And the young sprig replies "It is well."

SPECIAL NOTICES.

Five Dollars Reward

Will be paid for evidence which shall secure the conviction of any person guilty of stealing the *Whig and Courier* from the door of any subscriber.

WHEELER & LYNDE.

NOTICE.

Bangor, Feb. 8, 1859

Eastern Express Company.

On and after MONDAY, Jan'y 3, the Office of the Eastern Express Company will be closed at 8 o'clock P. M. F. H. HODGMAN,

jan1, 1859

To the Citizens of Bangor.

CITY OF BANGOR, January, 1859.

MR. LEWIS WATERMAN, proposes to number the Streets of our city upon a plan which will mainly obviate the necessity of renumbering afterwards, on account of the erection of new buildings, as each street is to be carefully measured, and the numbers to be arranged with reference to such probable new erections. He comes with recommendations from other cities and towns where he has heretofore performed similar services, which are satisfactory to us. It is hoped that the citizens of Bangor will avail themselves of this opportunity for effecting the proposed improvement, the expense being small.

feb10

To the Honorable Legislature of the State of Maine:

THE undersigned represent, that they are the owners of a certain steam saw mill in the town of Brewer, on the east side of the Penobscot river, and of certain land, measuring about one hundred and twelve rods on the shore of said river, above, and in the neighborhood of a certain point, called Brackett's Point—that it is very important to them, in order to protect their property and carry on their business successfully, to extend from their said land, two wharves, one from their upper and the other from their lower line, not exceeding fifty feet beyond low water mark into said river, and to erect a pier about twenty-five feet square between and on a line with them—that such wharves and pier may be so built as not to interfere with the common navigation of the river, but on the other hand, to be of more benefit than injury to navigation.—They, therefore, pray that they may be authorized by your Honorable bodies, to extend such wharves and pier into the Penobscot river as aforesaid, not exceeding fifty feet beyond low water mark, and as in duty bound will ever pray.

BENJAMIN GOODWIN,
PALMER & JOHNSON.

Brewer, Jan. 29, 1859.

STATE OF MAINE.

In House of Representatives, Feb'y 8th, 1859.

On the Petition aforesaid, *Ordered*, That the Petitioners cause an attested copy of their Petition, with this Order thereon, to be published one week in the Bangor Daily Whig & Courier, the last publication to be five days at least before the twenty-first day of February, that all persons interested, may then appear and show cause, (if any they have,) why the prayer of said Petition should not be granted.

Read and accepted.
Sent up for concurrence.

GEORGE W. WILCOX, Clerk.

In Senate, Feb'y 9th, 1859.

Read and concurred.

JOSEPH B. HALL, Secretary.

A true copy.—Attest:
JOSEPH B. HALL, Secretary of the Senate.

To the Hon. Senate and House of Representatives of the State of Maine, in Legislature assembled:

THE undersigned, citizens of Bangor, would respectfully represent, that said city is poorly supplied with hard or soft water, and believing it was the design of the Author of all goodness that his creatures should have a full supply of that element, which is so essential to their health and happiness, would humbly ask of you to grant us and our associates an act of incorporation to water the City of Bangor from Pushaw Pond or elsewhere, with all the powers and privileges granted to like corporations, and as in duty bound will ever pray.

ABRAM WOODARD,
GORHAM DAVIS,
JOHN L. HODSDON,
DANIEL GOSS.

Bangor, Jan'y 24, 1859.

State of Maine.

In House of Representatives, Feb. 8, 1859.

On the Petition aforesaid, *Ordered*, That the Petitioners cause an attested copy of their Petition, with this Order thereon, to be published one week in the Bangor Daily Whig & Courier and the Bangor Daily Union, the last publication to be five days at least, before the 21st day of February inst., that all persons interested, may then appear and show cause, (if any they have,) why the prayer of said Petition should not be granted."

Read and accepted.
Sent up for concurrence.

GEORGE W. WILCOX, Clerk.

In Senate, Feb'y 9, 1859.

Read and concurred.

JOSEPH B. HALL, Secretary.

A true copy,—Attest:
JOSEPH B. HALL, Secretary of the Senate.

TELEGRAPHIC
TO THE DAILY WHIG AND COURIER
Congressional.

WASHINGTON, 9.

SENATE.—Nothing of importance has transpired. A long tariff debate is anticipated.

A resolution by Mr King of N. Y. directing an inquiry into the working of the Canada Reciprocity Treaty and the expediency of its abrogation was adopted.

The Senate resumed the consideration of Mr Bigler's resolution that a large public debt is inconsistent with the true policy of the country, and that Congress ought to proceed without delay, to adjust the revenue to the expenditures.

Mr Toombs [illegible] Mr Bigler's speech of yesterday and went over it section by section [illegible] paragraph of the resolution [illegible] a truism that it [illegible] in time of peace to incur a large public debt, at the same, however, depending on whether the debt be [illegible] of permanent [illegible], and that the second [illegible] [illegible] and Persians. Mr Toombs proceeded to demonstrate that [illegible] avoidable but ought to be avoided, and that there is not only no necessity to keep the expenditures at that present standard, but that the present tariff is ample to meet the just and proper expenses of this government. The Secretary of the Treasury [illegible] the five years prior to 1857 [illegible] a revenue exceeding the expenditures. Finding that there was a revenue of $50,000,000 and an expenditure of $48,000,000 the tariff was reduced without party distinction, South Carolina and Massachusetts uniting to do it. He did not propose by his vote on the tariff of 1857, to [illegible] public revenue, and he did not propose [illegible]

Mr T. spoke further [illegible] when the subject was [illegible]

Mr Hunter of Va. attempted [illegible] the consular and diplomatic bill, and Mr Slidell of La. was equally anxious to take up the Cuban question.

A lengthy discussion [illegible] leading Republican Senators expressed themselves against taking up the latter, though ready at any time [illegible] its hearing.

The Cuban bill was [illegible] vote of 27 against [illegible] consent, made a [illegible] of the bill providing [illegible] payable semi annually.

Mr Doolittle of Wis. made some remarks, and offered a substitute appropriating [illegible] millions to enable the President to purchase in Yucatan, Central or South America, territory on which free [illegible] located under the guarantee of the United States.

Adjourned.

HOUSE.—A [illegible] from the Secretary of the Treasury in answer to a resolution asking [illegible] house at Baltimore [illegible]

The Secretary said he [illegible] thorized public buildings [illegible] commenced previous [illegible] should continue [illegible] Congress provides the funds.

A discussion [illegible] Mr Harris of Md. called attention to the fact that the building the Baltimore Custom-house and moved to refer the [illegible] Committee of Ways and Means with instructions to report a bill [illegible] the sum.

Mr Curry moved a substitute instructing that the Committee [illegible] all laws authorizing construction of Post Office, Customs and Court buildings where no contracts have been made. Rejected.

Mr Harris' motive was [illegible]

The House then proceeded to the consideration of amendments to the appropriation bill.

The executive appropriation bill was considered and the [illegible] following items concurred [illegible] $200,000 [illegible] next Congress $10 [illegible] and boxes for members [illegible] the Congressional [illegible] San Francisco mint [illegible] New York Assay Office, $325,000 [illegible] leased by New York [illegible] smaller items, and [illegible] deficiencies in printing appropriations.

The bill then passed [illegible]

Mr Bowie, from the [illegible] reported back the [illegible] ferred to the Committee of the Whole.

Mr Davis of Miss. [illegible] the bill comes up [illegible] the working [illegible]

Mr Phelps of Mo. [illegible] appropriation bill.

The House then [illegible] Nebraska [illegible] ing [illegible]

WASHINGTON, [illegible]

The [illegible] Mr [illegible] and Mr Butterworth [illegible]

The Secretary of the Treasury asks that [illegible] power be given [illegible] time, such [illegible] less to [illegible] or otherwise, and [illegible] new lighthouses [illegible] vorably by the Light House Board.

The drafts paid [illegible] Treasury Department [illegible] nearly $[illegible]

A report [illegible] shortly resign [illegible] Indian Affairs [illegible] California.

The Central [illegible] address to the people [illegible] delivered his speech [illegible] New York.

The Arizona [illegible] Association [illegible] take out emigrants [illegible] Gen Henningsen.

The Democratic [illegible] the Capitol to-night. [illegible] called to the chair and Messrs Jackson and Pendleton were chosen Secretaries.

Mr Phelps of Mo. [illegible] that the temporary necessities of the government should be met by an extension of the law authorizing the issue and re-issue of treasury notes for the period of two years; that the appropriation bills ought to be acted on as speedily as possible and that the expenses of the government ought to be reduced to the lowest point consistent with the wants of an economical administration of the government.

A debate took place on the various propositions and finally the resolutions of Mr. Phelps were adopted.

A noticeable feature of the proceedings was the defeat by 27 against [illegible] Mr [illegible] resolution, declaring it inexpedient to alter the tariff of 1857. It was understood that the members were not to be bound by the action of the caucus.

ST. LOUIS, [illegible]

New gold diggings have been discovered near the head waters of the Missouri in the neighborhood of Pawnee Pass. Gold is said to be very plentiful, but of inferior quality.—The mines can be very nearly reached by steamboat navigation.

The Penitentiary building at Alton, Ill. was partially destroyed by fire last evening. No prisoners escaped. The fire was the work of an incendiary.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Ticket, including transit of the Isthmus, via. Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on Travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below.

By order of the Post-master General, the United States Mail Steamers will be hereafter despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only line* giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours* and *only by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *speedy* passage, with the greatest comfort and safety to health.

Tickets must be signed by one of the Company's Agents before they will be accepted by the Agent at Panama, and tickets thus signed can be obtained of the only authorized Agent for the U. S. and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent, No. 16 Broad street, Boston.

August 1, 1858 ly

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

Is it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when the water-proof article is remedied, by the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time utterly injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of the time have worked in a wet Tan-yard with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company under the charge of the subscriber.

It is a large, commodious, and well-furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers and particularly to those visiting the city on business or for pleasure renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of its guests, the proprietor hopes to receive a liberal share of patronage.

THE PLEASURE AND PROFIT OF
HONEY MAKING.

Torrey's Bee Hive.

The subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive, and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to anything yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, or the proper separation of the swarms, and generally for the health and comfort of the workers.

The box used in this hive for storing honey, are the best adapted, in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address

American Safety Paper
Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$20 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837,)

76 State St., opposite Kilby St.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,"
Late Commissioner of Patents.
"Boston, February 1, 1858.

Mr R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGERT."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents

R. H. EDDY.
Boston, Sept. 1, 1858 3taw&wly

NOTICE

ALL persons indebted to the Estate of the late *William Bingham*, Esq, deceased are called upon to make immediate payment.

FAMILY FLOUR, Buckwheat Meal, Rye Meal, Corn Meal and Wheat Meal, for sale low by d24 THOMAS J. STEWART.

COD-FISH, English and French Table Fish for sale by d24 T. J. STEWART.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

LIVER INVIGORATOR

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures *costiveness.*

One dose taken after each meal will cure *Dyspepsia.*

One dose of two tea spoonfuls will always relieve *Sick Headache.*

Only one dose immediately relieves *Colic*, while

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera.*

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures *Chronic Diarrhœa* in its worst forms, while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy* by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague, Chill Fever*, and all Fevers of a *Bilious type.* It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

DR. SANFORD, Proprietor, No. 345 Broadway, N. Y. Retailed by all Druggists. Sold, also, by B. F. Bradbury, Bangor. 1&e4 9'58 d&wly

SAINT JOHN HOTEL,

Corner of King and Charlotte Streets,

SAINT JOHN, N. B.

THIS HOTEL, having been leased for a term of years, is now open for the reception of guests, permanent and transient. The House has been put in thorough repair, and newly furnished throughout, and will be conducted in all respects as a First Class Hotel—and the Proprietors, having had long experience in Hotel keeping in the States, flatter themselves that by strict attention to the wants of their guests, they will merit and receive a liberal share of patronage from the public.

Important to Horse Owners.

PORTSMOUTH, N. H., May 29, 1858

T. C. Butler, Esq.

Dear Sir:—During the last year I have sold some 300 packages of your Miller's Condition Powders, for Horses and Colts, and in no instance that I have heard of, have they failed of giving entire satisfaction.

I regard them as standing at the head of all Horse medicines now in the market, and am sustained in this opinion by all the stable-keepers and owners of horses who have used them in this vicinity.

I cheerfully give my testimony in favor of your Powders, and advise all interested to give them a trial. Very respectfully yours,

(Signed, WILLIAM R. PRESTON,
Apothecary.

We, the undersigned, fully concur in the above recommendation. (Signed)

The Boston Journal
FOR 1859.

"The Favorite Paper of New England."

Published Daily, Semi-Weekly and Weekly.

Payment invariably in advance

In announcing the terms for THE JOURNAL for 1859, the proprietor deems it unnecessary to describe its peculiar characteristics as a popular newspaper, or to make any special promises for the future. He deems it sufficient to say that what

THE BOSTON JOURNAL

has been in the past it will be in the future. Its the almost unanimous consent of its cotemporaries throughout New England, it stands at the head of the New England Press, in all those qualities which go to make up a reliable, enterprising, *live newspaper.* This position it has attained by pursuing a steady, straightforward course in all respects, and by sparing neither labor nor money to give the latest intelligence and the fullest reports of all matters of interest at the earliest moment. It has relied upon its own merits, and not upon the representations of canvassers or "drummers" to gain for it the confidence and patronage of the Public—and the result has been that *it has now a circulation nearly three times as large as that of any paper of its class in New England*, and it is constantly and steadily increasing. The proprietor intends by the employment of experienced and competent men in all the departments of the establishment, and by the most liberal outlay of means in the procuring of important news from all quarters, to make THE JOURNAL still more worthy the name of "*the favorite paper of New England.*" And with this simple announcement he invites the attention of newspaper readers and newspaper dealers throughout New England to the following statement of the terms for the several editions of THE JOURNAL:

BOSTON DAILY JOURNAL.

Morning and Evening.

Contains the latest news received by the mails and telegraph up to the hour of going to press. It is printed on one of *Hoe's Six Cylinder Fast Presses*, at the rate of FIFTEEN THOUSAND an hour, which enables us to hold back the form until the very last moment, and to issue the edition in season for the mails. It is published at the low rate of

Six Dollars a year; Single Copies two cts.

SEMI-WEEKLY JOURNAL.

Tuesday and Friday Mornings.

Contains all the reading matter published in the DAILY JOURNAL for the three days preceding, averaging from *thirty-one to thirty-two [illegible]* The subscription price of the Semi-Weekly Journal is

Three Dollars a Year.

TO CLUBS

Five copies, one year, [illegible]
Ten copies, one year, [illegible]

To business men in the country who [illegible] a daily paper, the Semi-Weekly Journal is invaluable.

BOSTON WEEKLY JOURNAL.

Great Success of the Club Plan.

Three years ago the proprietor of the JOURNAL decided to reduce the price of the Weekly *Journal*, and the success of the new [illegible] plan has been so great as to induce [illegible] new rates for 1859:

One copy, one year [illegible]
Two copies, one year, to one address, [illegible]
Five copies, one year, to one address, [illegible]
Ten copies, one year, to one address, [illegible]
And one copy to the getter up of the [illegible]
Twenty copies one year to one address, [illegible]
and two copies to the getter up of the [illegible]

PAYMENT TO BE MADE

INVARIABLY IN ADVANCE.

At the expiration of the time for which payment has been received, the paper [illegible] will be stopped

The great success which has attended the introduction of the Club plan in the circulation of the Weekly Journal, and which has [illegible]

Trebled its Circulation

since its adoption, encourages [illegible] continue the same plan [illegible] suggest to those who [illegible] paper for the ensuing year [illegible] so them one of the best [illegible] New England, at a very low price [illegible] within the reach of every man.

The present season is a [illegible] organization of Clubs [illegible] Journal. One enterprising man in each town and village can [illegible] Club of [illegible] *paper for nothing.*

THE JOURNAL FOR CALIFORNIA

Is printed on the [illegible] for mailing by the steamers [illegible] It is made up with a summary of [illegible] information of New England [illegible] Over *twelve thousand copies* [illegible] sent there, which is a much larger [illegible] than any other paper printed [illegible] States has. It is mailed at [illegible] cents a copy. A person sending [illegible] have one each of sixteen numbers [illegible] one they may desire.

TO ADVERTISERS.

As an advertising medium The Journal has no equal in New England. The [illegible] and unjust system of [illegible] advertisers has been entirely abolished, and a [illegible] system of prices adopted, by which [illegible] pays for the room occupied in the paper [illegible] there. Advertisements may be [illegible] ing Room, or sent by mail or otherwise, with perfect confidence that the price charged will conform exactly to the published rates, and that they will be inserted as precisely as though handed in in person and [illegible] made in advance. No "Drummers" [illegible] have been employed to solicit advertisements, and no discount from the regular [illegible] prices is ever allowed, however large the [illegible] advertised. These considerations, coupled with the fact that its circulation is nearly

Three Times as Large

As any subscription or Two Cent Daily paper published in Boston, and that all advertisements appear in both the MORNING and EVENING papers, renders it a favorite medium for communicating with the public, among the most intelligent and enterprising advertisers.

The BOSTON JOURNAL is for sale at the Newspaper and Periodical Depots in Boston [illegible] all the principal cities and towns [illegible] New England, and in the cars on all the [illegible] railroad leading from Boston. It is delivered by regular carriers at the residences and places of business of the citizens of the larger towns, such as Worcester, Salem, Lynn, New Bedford, Newburyport, Lowell, Lawrence, New Haven, [illegible] Portland, Me., Bangor, Me., Concord, N. H., and in the adjoining cities of Roxbury, Charlestown, Chelsea and Cambridge, with the same regularity and promptitude, and in the same manner, as it is in Boston.

Orders for either of the editions of the JOURNAL must be invariably accompanied by the cash, and should be addressed to

CHARLES O. ROGERS,
12 State Street, Boston

To newspapers that may copy this prospectus with an editorial notice directing attention to it, and send a copy *marked* to this office, we will send the Daily Journal for one year.

Whig and Courier.

THE WAR OF 1812.

SAMUEL WOODWORTH (the Poet,) published a quarto sheet called "The War," in the city of New York. We are indebted to Mr. Baker a veteran Journeyman Printer, for a bound volume of a Journal, which forty-six years ago we used to read with intense interest. The contents are as fresh in our memory as if they had appeared in our own columns but a year ago. Some gleanings which follow must possess interest to the readers of the present day.—*Albany Journal.*

TRULY PATRIOTIC.—So much spirit was displayed by the militia of the town of Lexington that a draft was necessary to ascertain, not who should, *but who should not*, be received as volunteers.—*Boston Patriot.*

Such is the spirit for fitting out private armed vessels in the neighboring ports, that the moment a schooner lying at Philadelphia had got her guns, provisions, &c., on board, and was ready fitted to receive her crew, it is said the seamen crowded alongside in such numbers, to volunteer *to draw lots* who should go on board her, and in less than an hour she had her full compliment of choice men without any bounty.—*American.*

The Constitution frigate, until within gun-shot of a large British fleet, was chased in turn for sixty hours—she has arrived safe at Boston.

AMERICAN NAVAL VICTORY.—To compensate our readers, in some degree, for the disappointment and mortification they cannot but feel at the misfortune of our little army under Gen. Hull, it is with feelings of pride and pleasure that we refer them to the gallant exploit of Capt. Hull, his nephew, in the frigate Constitution, in capturing and destroying the British frigate Guerriere. What adds to our satisfaction on this most cheering occasion is, that the Guerrier was esteemed by the British as one of the finest frigates in their service, was manned by a picked crew, and suffered to cruise alone, with the full confidence that any American frigate would be an easy prey to her. Last winter while off this harbor, the Captain of the Guerriere vauntingly had his vessel's name painted in large characters on her fore-topsail, and inquired of every vessel he met of Commodore Rodgers, intimating that he meant to chastise him for the the dressing he gave the Little Belt. We trust that the valiant Captain Dacres will boast no more.

The John Adams, Capt. Fash from Liverpool, arrived at this port on Friday last, was spoke by the Guerriere three days before her engagement with the Constitution, and the captain presenting the Register at the Custom house, the following lines were observed written on the margin,

"Capt. Dacres, commander of his Britannic majesty's frigate Guerriere, of 44 guns, presents his compliments to Commodore Rodgers, of the U. S. frigate President, and will be very happy to meet him or any other American frigate of equal force to the President off Sandy Hook, for the purpose of having a few moments *tete-a-tete*."

Captain Hull has saved him the trouble of going so far for that opportunity.

MILITARY MOVEMENTS.—Last week six hundred U.S. troops arrived here from Virginia, and proceeded to head-quarters at Greenbush. Yesterday one hundred arrived from Philadelphia; and five hundred are expected on the 20th inst.

Lieut. Col Winfield Scott, of the 2d U. S. Artillery, with two companies of the first battalion of his regiment, passed this city on Tuesday, from Philadelphia to Greenbush.

GENERAL HULL.—We this week present our readers with the official report of General Hull to the Department of War, respecting the surrender of Detroit and the north western army, together with the letter of Colonel Cass of the Ohio Volunteers, to the same. Each document, it will be perceived, represents the affair in a different light; and the letter of Col. Cass, highly impeaches the valor and integrity of Gen. Hull.

General Hull is now at the seat of his brother-in-law, Judge Masters, in Rensselaer county in this state.

Lieut.-Col. Miller of the U. S. army, who commanded the gallant 4th regiment in the west has been exchanged for Capt. Dacres of the Guerriere. The one ... to join the 6th infantry, commanded by Col. Simonds, on the Canada frontier.

[This was the gallant Gen. Miller, who modestly said he would "try" to silence a British battery at Lundy's Lane. Gen. Miller was, after the War, Collector at Salem, where he died.]

THE CONFESSIONAL IN ENGLAND.—A great hue and cry has been raised in London at the discovery that a curate in the most fashionable quarter of the city, known as Belgravia, has established a confessional box in his church and a meeting was ostensibly called for the purpose of hearing declarations in opposition with the alleged abuses in the parish of St. Barnabas, and held on the 14th inst., at St. James's Hall, Piccadilly. The proceedings of this meeting are given as follows:

"The Hon. and Rev. Mr. Baring read the evidence which had been laid before the Bishop of London. Mr. Baring said it had been charged against him that the case rested upon the evidence of two profligate women, but the fact was, that these women had not come to him. He sent for them once, and went three times to them before he could get them to say a single word. The Bishop caused the evidence to be sifted and tested by a legal gentleman, and the result of that investigation, so far from weakening the case, added to its objectionable features by being confirmed and enlarged by three other female witnesses. The bishop then caused the curate immediately implicated by this ... to be first suspended, and then failing any defence, to be dismissed from the curacy. It was deeply to be regretted that several adults in the parish had assisted the curate in applying the confessional. The Hon. and Rev. Mr. Liddell, the parish superior wished them to believe, that in those cases the curate had been carried away by zeal and ... the desire for the church, but the truth was, there were several cases implicating Mr. Liddell himself and his other curates. A vote of thanks was moved to Mr. Baring for the course he had adopted, and three cheers were given for Lord Calthorpe when the meeting separated.

It was stated by gentlemen concerned in convening the meeting that there were present 210 members of Parliament, including nearly 60 ...

The name of the curate whose license was revoked is understood to be the Rev. Arthur Poole."

Otis' Lightning Rods.

☞ *The only Patent which affords absolute Protection against Lightning, as demonstrated by science and experience.*

This Rod has been extensively used thro' the Southern and Western States, West Indies and the Canadas, since 18..., and though it has been struck in hundreds of instances, it has *never failed to protect.*

The great amount of damage done recently by lightning has called attention more ... to the protection of buildings by the use of Lightning Conductors. It is all important that the rod used should be one that *will give protection*, and in rodding buildings it should be done by one having experience in the business.

Mr. Reed former partner of D. M. Kimball, now proprietor of the patent for Penobscot Co., has returned to this city to commence business for the coming season. Having had large experience, he assures the public that all his work of this kind will be done in a thorough, neat, and scientific manner.

☞ Samples of this Rod, and certificates of its merits from many of the most eminently scientific men in the country, may be seen at D. M. HOWARD'S Store, on Exchange street, No. 15; and at Dodge's Hotel, Harlow st., and at the office of the Penobscot Mutual Fire Insurance Co., Granite Block, East Market Square, Bangor.

J. D. REED, Proprietor.
A. K. P. BERRY, Agent for the sale of Rods this season.
Bangor, April 30, 1858. 3taw3m

P.S.—Exclusive rights for Hancock and Aroostook counties, where this rod has not been introduced, for sale on application to A. K. P. BERRY, agent at Franklin House, Bangor.

Freights for Vessels

OBTAINED On Commission, By SETH B. BENSON, Commission Merchant, No 1 City Point Block.

CAPTAINS visiting this city for employment will find at my office a list of all Freights ready in the market, corrected daily, and will be charged a commission on the freight, if they are introduced to one. Shippers of Lumber, or any other articles of Merchandise, will confer a favor if they will call and make their wants known, and every facility will be afforded them, free of charge. A list of the vessels in the market will be kept, stating their capacity, &c. Captains of vessels are respectfully invited to call and enter their vessels on the list, and if they do not receive any benefit I will ask them no pay.

☞ Lumber of all kinds for sale on commission. Orders for Dimensions, of all kinds, filled at short notice and on as favorable terms as by any dealer in the market. SETH B. BENSON.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your building at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack-knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of P. B. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

E. H. SMITH.
Bangor, April 27, 1858.

THE HATCH HOUSE, Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.
Bangor, Feb. 26, 1858.

Sales Warehouse removed from Kilby-St to 32 & 36 Federal-st, Boston.

SANDERSON & LANERGAN, Etna Laboratories, East Cambridge and South Reading, Mass.

P. S. Our extensive engagements in the Exhibition business have led many to suppose we furnished the Fire Works to the City of Boston last year (1857) when the unfortunate and fatal accident took place on the exhibition ground.

In justice to ourselves, and in answer to enquiries, we will state that although we supplied the city of Boston for a number of years, and have contracted for the same the present year, we did NOT supply them last year, the contract for 1857 having been given to other parties.

Safety, Utility and Beauty.

New Eng and Trace Coupling Company. *STATE RIGHTS FOR SALE.*

WE are now exhibiting this desirable invention to the public. The Patent Trace Coupling is an article which needs only to be seen to be appreciated and universally adopted. By this Coupling the Trace is attached to the whiffletree *instantaneously, without using the hands; cannot be disconnected by accident*; is stronger and *more durable than any other* attachment now in use, and makes what is so desirable in a fine carriage *an excellent finish.*

The Couplings are manufactured of different materials from the common finish to the *finest silver plate*, and can be supplied at a *lower cost* than any thing that is now used for that purpose, leaving a margin for an *immense profit*. Any person with a moderate capital can soon realize a fortune in its sale.

We are prepared to furnish the Couplings, of the different grades and costs, in quantities as desired, to those only who purchase State rights.

The coupling may be seen at the office of the Company, where a scale of prices may be obtained and all communications must be addressed to THE NEW ENGLAND TRACE COUPLING COMPANY, *Basement No. 2, Old State House, Boston.*

Atlantic Monthly FOR JUNE. Received by CHARLES HIGHT. m22

☞ REMOVAL.

United States and Foreign PATENT AGENCY.

SAMUEL COOPER, Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO WEBSTER BANK BUILDING, 13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble or expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 27, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office and that he ... and such as ... to him for the business in which he is about to engage.

HENRY B. RENWICK,
L. D. GALE,
B. R. LANE, } Principal Examiners.
F. SOUTHGATE SMITH,
T. R. PEALE,
THOS. T. EVERETT,
WM. C. LANGDON, } Assistant Examiners.

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD, *Late Principal Examiner of Patents.*

HIGHLY IMPORTANT DISCOVERY.

FOUSEL'S PABULUM VITÆ

Fousel's Pabulum Vitæ Has now gained its position before the public as *THE ONLY REMEDY* yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most ASTONISHING SUCCESS in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors freely, and consequently IS DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, the agent, however assures the public in all sincerity, that this medicine is entirely *perfectly safe, and free from all other deleterious ingredients* but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure
Consumption by using One to Six Bottles,
Bronchitis by using One to Three Bottles,
Coughs by using less than One Bottle;
Colds by using it Two to Six Days,
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle,
Soreness of the Chest by using less than One Bottle,

Price $3 per bottle, accompanied by a Treatise. For sale by

F. J. LAFORME, Sole Agent, No. 5 Milk Street, Boston, Mass.

And by all respectable Druggists and Apothecaries in the United States and British Provinces. nov25'57 dly jb

THE CRYSTAL OIL LAMP,

For Burning the Crystal Oil, Combining Economy and Safety!

PATENT RIGHTS *FOR STATES & COUNTIES FOR SALE!*

This important invention for producing the *cheapest* light in the world, is now perfected and offered to the public. Numberless efforts have been made to produce a cheap light but were attended with such inconvenience as to destroy their utility and adoption. But this Crystal Oil Lamp, while it is the *cheapest* is both safe and agreeable in every position, making a clear, *white and brilliant flame* entirely free from smoke or odor. There is no danger from explosion, but it is *perfectly safe* under all circumstances. The oil can be used in any place without fear of soiling the nicest garments. The lamps are simply arranged and perfectly controlable by the children and domestics, and so perfect that the light can be varied in a moment from that of one to eighteen or twenty ordinary lamps. While it is free from the disagreeable smell arising from the Kerosene, and the danger attending the use of burning fluid it is found upon a fair comparison to produce

As much LIGHT for ONE CENT as Kerosene will for three Cents, or Burning Fluid will for Six Cents.

Thus saving five-sixths of the entire amount now expended, or the price of the lamp in about a month. They are adapted to all ..., making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent right for the different States and Counties throughout the Union with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for themselves the monopoly of a trade entirely free from competition. Facilities are completed for the manufacture of the lamps in such quantities that they will be furnished to the purchasers of rights to any extent, at such a price as will yield an almost incredulous profit. These rights will be closed off immediately, and the lamps and oil delivered as soon as desired. As no lamps or oil will be sold to any but purchasers of rights, applications ... the request will not be noticed. Communications addressed to the Crystal Oil Lamp Co., No. 6, Merchants Row, will be promptly attended to.

Crystal Oil Lamp Company, No. 6, Merchants Row, Boston.

TRANSIENT ADVERTISING IS INVARIABLY IN ADVANCE.—The necessity of this rule must be obvious to every one, although only those who have gone through with the experience can judge of the inconvenience, expense, and loss of a business which opens such a great number of small accounts, scattered over so great a surface. Our customers will understand, therefore, the reason of the rule. They will not fail to see its justice.

Republican Nomination.

FOR GOVERNOR,
LOT M. MORRILL

Androscoggin & Kennebec Railroad.

As we have before stated, the Annual Meeting of the company was held on the 30th ult. We published the names of the new Directors yesterday.

We have now the Annual Reports of the Directors, Superintendent, Treasurer and Auditors.

The report of the Superintendent, Edwin Noyes, Esq., gives a succinct view of the business of the two roads (A. & K. and P. & K.) as run under the lease, for the year ending May 31st, 1858.

The number of passengers carried was 112,714, paying $144,308 30. Tons of merchandise carried 63 371, paying $118,272,45. Receipts from mail, express, extra baggage, &c., $16,568,28. Total earnings $279,149,[illegible].—Earnings the year previous—from passengers $175 321,5[illegible] from freight $133 431,17, mail, &c., $13,[illegible],81—total, $322,310,51.

It will be seen that there is a decrease in the earnings as compared with the year previous, of $43,161,23, or about 13½ per cent. The loss on the merchandise is about 12 per cent in tonnage, and in passengers about 7 per cent on the number. This diminution is not confined to any particular part of the line, but extends over its whole length. "The traffic of the road has diminished (says the report) in common with all branches of business in our State. The business of a railroad is a fair index to the state of business in the community."

The whole distance run by engines and trains during the year has been 187,900 miles. In passenger service 98,000 miles; in the merchandise department, 75,100 miles, and in miscellaneous service, 14,700 miles. The miles run in passenger service, is an increase on that of the year previous. The train run in connection with the steamer at Portland during a portion of last year, was made necessary in consequence of the relations of this company with the railroads west of this. The distance run on each of the roads composing the line, during the year, is very nearly equal.

The expense of running these trains, and of operating the line, and keeping the road-way and all its rolling furniture and buildings in repair during the year ending May 31, 1858, have been $133 255 12, which is 70¼ cents per mile, for the whole distance run with trains.

These expenses are distributed among the following departments.

For repairs of track, including bridges on the line	$43,566,60
For repairing the engines, cars and tools	22,297,62
For labor and expense of working the trains	12,143,07
For labor and expenses at stations	14,299,19
For salaries and general management	6,319 27
For repair of buildings	2,352 43
For repairs of fence	1,293,01
For wood, (6739 cords), and other fuel consumed	19,416,72
For lost or damaged goods	809 12
For lost or damaged baggage	111 00
For injuries to persons	0,00
For legal expenses	147.93
For printing and stationery.	938,10
For general and miscellaneous expenses, (including taxes,)	3,464.39
	$133,255.12

On the whole considering the distance run by trains, the expenses are below what they were last year.

"It must be borne in mind in reference to the expenses of operating this line during times of depression in business, such as have existed during the last year, that we cannot reduce our force by any reduction in the number of trains, where we run only one train each way, daily. While on the whole the expenses of the year have been diminished, there are a few departments in which they have comparatively been increased. As in maintaining the track and bridges, we have during the year, covered the long bridge at Lewiston with iron to preserve it from wet and decay, and put into the track of the Androscoggin and Kennebec Road about 3800 new cross-ties, and at the same time, raised portions of the track requiring it, on new gravel. On this part of the line, but few bars of new iron (104) have been necessary. On the Penobscot and Kennebec Road the track has required about 700 new bars of iron, or bars re-rolled. The rails, cross ties and bridges, are at such an age that quite an expenditure will be required annually for renewals."

The materials for repairs, wood, &c., on hand, are valued at about $37,800.

The Superintendent remarks that "No essential injury, accident or delay has occurred to any train during the year, and no person, either employee or others, has received any injury from our trains."

This remark is true. The trains have certainly been run with a regularity and safety unequaled, we think, upon any other line of the same length in this country.

The net earnings for the year, (over and above running expenses) are divided as follows: for the And. & Ken. Co. four-sevenths, $83,35[illegible]; for the Pen. & Ken. Co. three-sevenths, $62,424,05. Total 114,396,1[illegible].

The liabilities and Assets (aside from Bond accounts) are reported as follows by the Treasurer, Joshua Frye, Esq.:

Liabilities,	$16,042,4[illegible]
Assets,	[illegible]1,191,1[illegible]

About $1,750,000 in bonds [illegible] accompany, and $44[illegible],800 in stock, represent the present cost of construction.

EXTRACT FROM THE DIRECTORS' REPORT.

Hon. [illegible] Wa[illegible], President, [illegible] his report by order of the Directors, [illegible]

Since [illegible] consolidation of the Penobscot and Kennebec and the Androscoggin and Kennebec railroads, under the Lease [illegible] December 1, 1856, the two roads have been [illegible] worked as one line, so far as the trains and [illegible] are concerned. The experience of the past year and a half [illegible] this arrangement so beneficial to both companies. It gives greatly increased facilities [illegible] traffic passing over parts or the whole of [illegible] two lines, while at the same time the business can be done and the property of the companies maintained at less expense than if they were separately managed.

Nothing has been expended not deemed necessary [illegible] maintain the road bed, bridges and furniture in efficient and safe condition, and on the whole, we believe that the operating expenses have been kept as low as they can be expected to be reduced, considering the length of line operated, and the distance run by the [illegible] and the condition in which the road and equipments have been kept.

In the [illegible] there has been a very great decrease [illegible] great depression in the business of the country, as has been experienced during most of the last year, has rarely been experienced, and in common with others, this corporation has suffer[illegible]

Left [illegible] floating debt at the close of the year ending [illegible] 1857 [illegible] $[illegible]3,26, was [illegible] at the close of the year ending May 31, 1858, [illegible] amounting to $136 04[illegible], [illegible]45, with [illegible] substantially amounting to $1[illegible] 194,12, [illegible] increase [illegible] the indebtedness [illegible] to $83,128,2[illegible]. The items of assets [illegible] of the stock in the Penobscot and Kennebec railroad Company, and Androscoggin railroad Company [illegible] Bonds of [illegible] are not at [illegible] available.

This [illegible] ordinary business of the country, saying [illegible] of the increase of population that may reasonably be expected upon its line, the road is capable of earning enough to pay the interest it owes. With the traffic on the road [illegible] number of the [illegible] years [illegible] to that [illegible] the net earnings would have been sufficient to pay all its interest.

The hope [illegible] the Directors have for the [illegible] from the present embarrassment of the company, [illegible] in a revival of the business of the country, to [illegible] the road. That, [illegible] of doubt, [illegible] such will [illegible] as they [illegible] has in former years [illegible] rapidly.

[illegible] [from our Correspondent.]

[illegible] Augusta, July 1.

The Public [illegible] Convention [illegible] was [illegible] largely attended to-[illegible].

It was organized by the choice of John A. Poor, President. Elisha Clark, Secretary.

At the time of writing, no [illegible] of particular interest has been accomplished.

A Business Committee was chosen consisting of Russell Eaton, Joseph [illegible] Fernan, Nelson Dingley Jr., [illegible] H. Hou[illegible], John [illegible] Lynde, to report [illegible] this afternoon what is necessary to be done to protect the interests of the newspaper press [illegible] Maine.

Something definite will be [illegible] this afternoon, in relation to foreign [illegible] and newspaper agencies.

There are thirteen Douglas democrats in the Minnesota legislature, [illegible] with the republicans, have [illegible] history of the administration of Senator Douglas and Shields [illegible] indicate the no election [illegible] a possible successor [illegible] this legislature of Mr. Shields [illegible] the term commencing next [illegible] administration democrats [illegible] support him and the republicans [illegible] cate a disposition to do more [illegible] hoping, probably, by [illegible] next year to supplant him with one of their own number.

SHOCKING ACCIDENT.—[illegible] a man named Ket[illegible] day evening [illegible] club stable on Park street [illegible] employed at the [illegible] Boston, fell out of the front window [illegible] upper part of the building and struck [illegible] head and shoulders of Mr. John A. B[illegible] [illegible] who happened to be passing at the time. Mr. Barker was seriously injured by [illegible] contents of the [illegible] fall, which [illegible] very slight "shaking up."

It is no use talking about [illegible] small straw-berries" on this side of [illegible] Some farm. One has lately been produced [illegible] a California, [illegible] *half a foot* in circumference [illegible] the paper [illegible] out there lie awfully.

TELEGRAPHS IN THE WORLD.—The following table shows the number of miles of telegraph lines in the world:

	Miles
America,	45,[illegible]
England,	10,000
France,	8,600
Germany and Austria,	10 000
Prussia,	4,000
Russia,	5 000
The rest of Europe,	7,500
India,	3,000
Australia,	12,000
Other parts of the World,	5,000
Total length of telegraph lines, 1858,	107,150

The number of [illegible] passing over the lines in the United States is estimated to be over 4,000,000 per annum.

THE FORTUNE OF SAND-MAN.—A boy worked hard all day for a quarter of a dollar. With the quarter he bought apples, and took them to town and sold them on the street for a dollar. With the dollar he bought a sheep. The sheep brought him a lamb, and her fleece brought another dollar. With this dollar he bought another sheep. The next spring he had two sheep and two lambs, selling sheep. Three times he sold his three dollars and bought three more sheep. He now had six, with a fair prospect. He worked where he found opportunity, thriftily, carried out, and put everything on his sheep. He took the choicest care of them, and soon had a flock. Their wool enabled him to buy a pasture for them and before long he was possessed of a fair start in life, and all from the quarter he earned in one day.

Surveyor's Office, July 1st, 1858.

FIRES IN THE WOODS. The heat and dryness of the weather, and the high winds which have prevailed for a day or two past, have caused much damage by fires which have spread from clearings in this vicinity. On the upper part of Essex street four or five miles from this city, on the woodland of Messrs. Washington Temple, Hiram Norton, Mr. Colby, the Messrs. Colburn and others the fire was raging extensively yesterday and the night. Mr. Temple, we learn, has had a hundred cords of wood burned, and the fire has also done much damage to his woodland.

[Since writing the above, we have visited the locality where the fire is raging, and found the damage to be very great. Yesterday evening (Thursday,) the fire had reached an Eastern direction as far down as the woodland of Mr. Nichols Mills and Mr. Rufus Prince. Across the lots, 200 or 300 acres in extent, it was running before the strong wind with great rapidity. To the north and east of this locality the fire was also raging. It was within a quarter of a mile of the McQuestion mill at Pushaw, where Mr. Pitman has two or three hundred cords of wood piled. The barn near by it was thought would be burned last night, and probably the wood also.

The inhabitants many of them fighting the fire all night.

Several hundred acres of valuable woodland have already been burned over, and cord wood [illegible] owned so far as we could learn as follows;

Washington Temple, about 100 cords; Mark Hills, 75 cords; Reuben Bagley about 40; Mr. Moore, 30; Mr. Lord, 25; Mr. Colby 15; Mr. Sawyer, 15; Mr. Prince, some wood and bark, with some other losses.]

DROWNED. Phineas W. Cook, of Presque Isle, aged 20 years, was drowned at that place on Saturday afternoon, while bathing.

The Aroostook Pioneer says that Messrs. Allen and Pratt of Letter G have fifty-eight acres of land sown to wheat, and that it looks fine.

Kinney and Davis, the Portland escaped prisoners, had not been retaken up to Wednesday evening. The Sheriff has offered a reward of $100 for their capture.

NARROW ESCAPE. The house of Mr. Holman on the Hampden road caught fire on the roof during the blow Wednesday afternoon, but was saved by the exertions of those who were in the vicinity. A bunch of shingles repaired all damage.

We understand that in some of our Boy's Schools, the Declaration of Independence will be read, and some extracts from Patriotic Speeches will be spoken, on Saturday morning July 3d.

FATAL ACCIDENT. We learn that a young man named William Souther, about 24 years old, was killed on Wednesday afternoon in the town of Staten, by a tree falling upon him while at work falling trees. He lived about fifteen minutes after the accident. He belonged in Levant, where he leaves a widowed mother of whom he was the chief support.

The "Fourth" will be celebrated at Rockland on Monday, by appropriate ceremonies and a turn out of the military companies of that city. The Belfast companies are invited.

In addition to the damage already recorded by the great thunder storm of June 26th, we are informed that the dwelling house of Mr. Daniel Hitchcock, in Damariscotta was somewhat injured in the roof and a large portion of the glass broken out, and that in Alna the barn of Mr. John Erskine, with 20 tons of hay, was burned.

Stillman B. Allen, Esq., of Maine, is appointed Clerk of the U. S. Navy Yard at Kittery, vice William Hammond, Esq., removed. The salary is $1200.

GARDINER FLORAL SOCIETY.—This Society, which for several years past, has given very successful shows of plants and flowers, held a meeting on the 19th ult., and elected the following officers for the ensuing year:

President—Mrs. Julia T. Warren.

Vice President—Mrs. Wm. Richards.

Secretary and Treasurer—Mr. J. D. Warren.

Standing Committee—Miss Christiana Swan, Mrs. Robert Williamson, Mrs. George Cook, Mrs. Charles Danforth, Mrs. Peter Grant, Mrs. Putnam D. Young, Mrs. J. W. Hanson, Miss Eliza Beers, Mrs. Eliza Byram, Gardiner; Miss Elizabeth Eaton, Augusta; Miss Lucy Chamman, Hallowell; Rev. J. W. Hanson, Gardiner; F. Glazier, Jr., Esq., Hallowell.

RETURNED CALIFORNIANS.—Messrs. Daniel B. Hinds, Albert Farrington, Whitney Grover and Frazier Wade all of this town, returned home by the last steamer.—*Skowhegan Clarion.*

CROPS AT THE EASTWARD. The *St. Croix Herald* says that the crops of all kinds present a promising appearance. Potatoes have advanced amazingly during the last fortnight and in many fields they are on the verge of blossom. The grain crop bids fair to be abundant.

ACCIDENT.—Mr. Elijah G. Hall was thrown from a cart, in this town on Tuesday last, and in his fall his back was hit by a top of a post, cutting a gash some four or five inches in length, and laying bare the back bone. The wound was dressed by Dr. Walbridge, and is doing well.—*Skowhegan Clarion.*

During the past fortnight several hundred persons have passed over the railroad to Princeton, and the facility is daily growing in favor as a summer resort. On Wednesday, there were about 70 passengers by the down train in the evening. From here they go there to Lambert and the same thing.—*St. Croix Herald.*

DROWNED.—Two young men, brothers, by the name of Gordon, residing in Hampden were drowned in the Seven mile Brook, about five miles above Anson village, on Friday last. One of them went into the water to bathe, and being unable to swim, got beyond his depth, another young man, who was a good swimmer went to his aid, and had succeeded in nearly getting him on shore, when the two were discovered by a brother of Gordon on the shore, who could not swim, but who in the excitement of the moment, rushed into the water, and seized upon both those that were then in. The one who could swim, was compelled to let them both go, in order to save his own life. The bodies were recovered and interred on Saturday last.—*Skowhegan Clarion.*

New Publications.

WAVERLEY NOVELS.—HOUSEHOLD EDITION.—Boston: Ticknor & Fields.

"St. Ronan's Well" in two volumes, completes the issue for July of this beautiful edition of Scott's Novels. This story was among the last of the great novelist's work, and is in some respects of a different character from the romances of the Waverley series—although equally interesting and equally abounding in strong and graphic pictures of nature and of life. It is a drama of the then modern life at a famous mineral spring, near the border, where both divisions of the British isle were represented among the fashionable guests.

The Bangor Agents for this edition are Messrs. Bugbee & Co.

WILDFLOWER: By the author of "The House of Elmore," "One-and-Twenty," &c. New York, R. M. DeWitt, 1858.

This is an English novel of a high degree of literary merit—approaching in purity and strength of style to the works of Charlotte Bronte, which have well been pronounced equal to any in the English language. The author of the work now under notice is apparently another of those rarely-gifted women who have within a few years conferred so high honor upon the sex and shed so great a lustre upon the walks of literature both in this country and our father-land. We think she is destined to achieve a brilliant reputation in the world of letters. The London press speaks in flattering terms of her former as well as her present work.

For sale by Bugbee & Co.

ARTHUR'S HOME MAGAZINE for July contains 14 illustrations and about twenty-five articles. Among the contributors are Virginia F. Townsend, the associated editor with T. S. Arthur, Wm. M. Briggs, Virginia DeForest, Julia A. Barber, Ellen C. Lake, Almeda C. Saunders. This Magazine is offered at $2 00 a year in advance. Address T. S. Arthur & Co., Philadelphia.

MERRY'S MUSEUM for July contains choice reading matter for the young people and very attractively illustrated. New York; J. N. Stearns & Co., publishers. Price $1 per annum. This excellent magazine now unites with itself, the Schoolfellow and Woodworth's Cabinet.

Governor Morrill's Speech at Augusta.

The following abstract of the remarks made by Gov. Morrill at the Republican State Convention is furnished by a reporter of the Boston Traveller:

"He embraced with alacrity the opportunity to meet the Convention, and to tender his grateful acknowledgments for this renewed expression of their confidence. Not insensible to the elevation of his position, he accepted it, aware of its responsibilities. In the general purpose of the Convention he expressed his hearty concurrence, and his purpose of cordial co-operation. I sympathise (said the Governor) with your sentiment of attachment to our beloved State and its interests, and your desire to make it that prosperous Commonwealth for which it is fitted, and shall always co-operate in all measures calculated to stimulate its industry and develop its resources. Never unmindful of our allegiance to the National confederacy, our immediate and most urgent duty is to the State. There can be no real independence so long as the State looks for favor or support from abroad—no substantial prosperity save from the people. The law of success with the States, as with men, is self-reliance. Agriculture, commerce, navigation, industrial arts—to develope and stimulate these, is to consult the highest interest of the State. I cannot forbear an expression of sympathy for that sentiment of devotion in the country, which is the foundation of the Republican party of the nation. Never was it a more imperative duty to see that in the great struggle for free labor against slavery, the influence of each citizen shall be on the right side. Whatever doubts have heretofore been as to the purposes of the government, there can be no doubt now that it has entered upon a career incompatible with the best hopes of the people and the welfare of the free States, whose fundamental element of progress is free, untrammelled, fully compensated labor.

The repeal of the Missouri Compromise, the complicity of the Government in the efforts to plant slavery in Kansas, the dicta of the Federal Judges that the Constitution guarantees property in slaves, the declaration of the President that slavery exists in Kansas under the Constitution, the efforts to force on the people of that territory a constitution which they never framed or assented to—all show to what depths the government has descended, and how wide is its departure from the policy of the fathers of the country. While by the willing steps of the Executive department slavery has been carried into Kansas, the opinion of the Supreme Court would carry it into the country at large, so that the practical question is whether there shall be servitude outside of the slave states. The country began with the policy of limitation—now the policy is to give slavery free play. Once the country was united in limiting it; now, it is divided. The slaveholders and the slaveholding interest, backed up by government, are for slavery; but the people, God be thanked, are opposed to it.—Once it was national, patriotic, and at any rate constitutional, to limit slavery—now it is unpatriotic, sectional, and unconstitutional. For half a century no man doubted the power of Congress over the territories; every man held that slavery had no rights outside of local law, now it is held that neither Congress nor people can [illegible] its extension. Our glory once was in *free and compensated labor*; now it is maintained that free labor is the "mud sills" of society, and that slavery is the corner stone of the Republican edifice. The government is fully committed to slavery extension, slavery by and under the constitution, and slavery above and triumphant over Congress and the people. And Lecompton is the test! Will patriots and sensible men shut their eyes to the danger of such a wide departure from the original principles of the government, or will they unite to put down a policy which invests a barbarous institution with power and prerogatives above the people? I know the strength of party attachment; honor as much as any man, party fidelity, but dare any man insult high Heaven by saying that he will maintain party at the expense of right? What any man may, but it is his duty to break the bonds of party, and trampling them under his feet, assume the attitude of an independent citizen? You find a party doing violence to the constitution, fostering a spirit of corruption and extravagance, plunging into extravagance and rushing on to Bankruptcy. What is the duty of the patriot? Supinely to acquiesce, or vote according to your conviction like men? It is obvious that the free states must unite for the preservation of the constitution and Union, as well as for their own dearest rights. Slavery has got bodily possession of the government. It controls legislation. It not only tyrannises over Kansas, but enters the Senate—thank God we meet it there!—and with characteristic hatred of free laborers, hurls its thunderbolts against the fishermen. Then it proposes to repeal the navigation laws, and revive the American slave trade. So low has the government gone in the scale of demoralization that slavery now claims that the prospective prohibition of the slave trade was unwise and unjust, and I expect that when the question is submitted to the Federal Judges, they will declare it unconstitutional. So far has our degeneracy progressed, that conventions are frequently held in the south, in which the best method of dissolving the Union is openly debated. When Henry Clay was asked how soon he would be ready for dissolution, he replied—"Never, never, never!" But dissolution is now a common topic with a certain faction. Innumerable are the instances in which it has been threatened as the alternative, if the designs of the slaveholder should be resisted. It seems to me however, that these threats have at last become ludicrous if not ridiculous. We are now threatened that if we don't hold our tongues, if we dont stop publishing tracts on the subject of slavery, the South will withdraw its contributions to the public charities and sunder the churches. Do we not all agree that this policy is perilous and dangerous, and that the time has arrived when we must unite and resist it? This is the condition on which you and I can have an undivided country to love and to serve.

Maine has taken her ground and will not soon be driven out. In both houses of Congress she has distinguished herself in defence of her rights, and in the contest—no, there is no contest about it!—in the annual election of this year, she trusts that the cause will suffer no detriment by your neglect.

LOOK BEFORE YOU KICK.—A minister, while on his way to preach a funeral sermon in the country, called to see one of his members, an old widow lady, who lived near where he was travelling. The old lady had just been making sausages, and she insisted on her minister taking some of them home. He objected on account of not having his portmanteau along. This objection was soon overruled, for the old lady wrapped them up in a rag and placed a bundle in each of the pockets of the preacher's coat. Thus equipped he started for the funeral.

While attending to the solemn ceremonies of the grave, some hungry dogs scented the sausages, and were not long in tracking them to the good men's overcoat. Of course this was a great annoyance, and he was under the necessity of kicking those whelps away. The obsequies at the grave completed, the minister and congregation repaired to the church, where the funeral discourse was to be preached.

After the sermon was finished, the minister halted to make some remarks to his congregation, when a brother, who wished to have an appointment given out, ascended the steps of the pulpit and gave the minister's coat a hitch, to get his attention. The divine, thinking it a dog having a design upon his pocket, raised his foot, gave a sudden kick, and sent the good brother sprawling down the steps.

"You will excuse me, brethren and sisters," said the minister, confusedly, and without looking at the work he had just done, "for I could not avoid it. I have sausages in my pocket and that dog has been trying to grab them ever since I came upon the premises!"

Our readers may judge of the effect such an announcement would have at a funeral.

THE CORTES. A correspondent writing from Kingston, Ja., says—The slaver Cortes has been condemned in the Court of Vice Admiralty, and her stores ordered to be sold. She is a noble specimen of naval architecture, and a thorough clipper. While in charge of the prize crew, she ran eleven knots with ease "on a wind." It is supposed that she was captured early in the morning before the sea breeze had set in, as she could at any time with a fair breeze, sail round any gun-boat in the British service. Her hull is long, low, and waspish, painted black, and her masts are tapering and rakish. Her whole appearance is exceedingly graceful, and the fittings of her cabin are chaste and complete. The Cortes will be taken into her Majesty's service in the place of the Cuba, the slaver captured by Lieutenant Stubbs last year, which has been condemned as a sea boat.

We learn that Hon Shepard Cary at a caucus in Houlton, recently denounced President Buchanan in strong language. He said the President never was a democrat, and that he never had a drop of democratic blood in his veins. That last assertion is borrowed from an old Federalist. Cary ought to rub the President down with his "Turtle Exterminator."—*Eastport Sentinel.*

DROWNED. In Richmond, Me., during the violent shower of Thursday afternoon, a small boy was drowned, it is supposed, as the last seen of him he was in the river, since which nothing has been seen of him.

SPECIAL NOTICES.

CARD.

The members of the Charleston Brass Band would tender our sincere thanks to the Ladies of Charleston, for their generous efforts in preparing and furnishing the [illegible] at the [illegible] and Complimentary [illegible] given us on the evening of June [illegible], to the citizens of the [illegible] for their [illegible] efforts to render the occasion interesting and profitable; and to our friends for their liberal patronage, whereby the sum of $101 was raised and appropriated to our aid.

We beg leave to assure those who have thus expressed their regard, that their favors are duly appreciated, and will be long remembered by us.

TELEGRAPHIC
TO THE DAILY WHIG AND COURIER

From Washington.

WASHINGTON, July [illegible]

New Orleans papers of the latest dates by the mails, state that the owners of the steamship Catawba have arranged to have the mails and passengers for Havana taken off by a steamboat, to avoid her being [illegible] at New York.

A contract has been concluded by the Post Office and Navy departments with the Pacific mail steamship Co., for carrying mails between Astoria and Panama, at $[illegible] per annum. Mr. W. H. Davidge [illegible] to the Post office department that he has made an arrangement with [illegible] under the extension to the [illegible]

The entire territory of New Mexico has been constituted a new land district. Mr. W[illegible] Pelham has been appointed surveyor [illegible] and the lands will soon be brought [illegible] and opened to pre-emption [illegible] office has information [illegible] of the soil in precious [illegible] the Mesilla Valley.

Baron De Wetterstedt, Minister from Sweden and Norway, [illegible] his credentials.

J. S. Wilson is acting commissioner of the land office, in the absence of commissioner Hendricks, who has gone to Indiana.

Lieut. Gen. Scott has left Washington for his head quarters.

Christopher Graham has been appointed receiver of the public moneys at Henderson, Minn., and Joseph Hopkins to a [illegible] at Marysville, Cal.

Various Items.

BUFFALO, July [illegible]

The railroad convention adjourned [illegible] at 9 o'clock, after passing the following resolution;

Resolved, That the New York and Erie Railroad be requested to advance on its passenger rates to the prices prior to the recent reduction, which rates shall remain unchanged [illegible] the 15th of July next, and that a committee of three be appointed by this convention to inquire into the difficulties between the Erie and Central roads.

Mr. Moran, President of the Erie road protested against the action of the convention, declaring that he would not be bound by it, and that the Erie road would endeavor to work for its own interest, independent of the action of the convention. Although the Lake Shore, Cleveland and Toledo, Cleveland, Columbus and Cincinnati and other roads were represented in the city, their delegates took no part in the proceedings of the convention, and consequently are not bound by its acts.

The committee of conference reported their opinion that positive evidence has been shown of a violation on the part of the Erie or Central Railroads of the contracts formerly existing between them, and that the recent reduction in passenger fares on the New York and Erie road was caused by unfounded reports of other roads, and therefore recommend the roads to amicably adjust the difficulties between them, and restore remunerative fares and good feeling.

ALBANY, [illegible]

The receipts at tide water for the [illegible] week of June show an increase over the [illegible] period of last year, as follows—flour, [illegible] bbls; wheat, 245,844 bushels, corn, [illegible] bushels. The total increase in receipts of flour to the present time is 835,426 bbls.

NEW YORK, Ju[illegible]

The Evening Post says that the [illegible] steamers have been sold in France for $[illegible]000,

SAVANNAH, June

The Republican has a letter from T[illegible] of the 24th instant, reporting the hanging the night previous, of four prominent citizens by the Florida vigilants. The statement is considered questionable.

TRANSIENT ADVERTISEMENTS TO INVARIABLY IN ADVANCE.—The necessity of this rule must be obvious to every one, although, only those who have gone through with the experience can judge of the inconvenience, expense, and loss of a business which opens such a great number of small accounts, scattered over so great a surface. Our customers will understand, therefore the reason of the rule. They will not fail to see its justice.

Republican Nomination.

FOR GOVERNOR,

LOT M. MORRILL.

Androscoggin & Kennebec Railroad.

As we have before stated the Annual Meeting of this company was held on the 30th ult. We published the names of the new Directors yesterday.

We have now the Annual Reports of the Directors, Superintendent, Treasurer and Auditors.

The report of the Superintendent, Edwin Noyes, Esq., gives a succinct view of the business of the two roads (A. & K. and P. & K.) as run under the lease, for the year ending May 31st, 1858.

The number of passengers carried was 115,711, paying $144 308 50. Tons of merchandise carried 63 311, paying $119 272,45. Receipts from mail, express, extra baggage, &c., $15 569,38. Total earnings $279,149,33.—Earnings the year previous—from passengers $175 521,63 from freight $133 431,47, mail, &c., $13,557 51—total, $322,510,61.

It will be seen that there is a decrease in the earnings as compared with the year previous, of $43 161,28, or about 13½ per cent. The loss on the merchandise is about 12 per cent in tonnage, and in passengers about 17 per cent on the number. This diminution is not confined to any particular part of the line, but extends over its whole length. "The traffic of the road has diminished (says the report) in common with all branches of business in the State. The business of a railroad is a sure index to the state of business in the community."

The whole distance run by engines and trains during the year has been 180,900 miles. In passenger service 93,000 miles, in the merchandise department, 75,800 miles, and in miscellaneous service, 14,700 miles. The most run in passenger service, is an increase on that of the year previous. The train run in connection with the steamer at Portland during a portion of last year, was made necessary in consequence of the relations of this company with the railroads west of this. The distance run on each of the roads composing the line, during the year, is very nearly equal.

The expenses of running these trains, and of operating the line, and keeping the road way and all its rolling furniture and buildings in repair during the year ending May 31, 1858, have been $133 255 62, which is 64 cents per mile, for the whole distance run with trains.

These expenses are distributed among the following departments.

For repairs of track, including bridges on the line	$43,808,50
For repairing the engines, cars and tools	22,097,52
For labor and expense of working the trains	12,142,07
For labor and expenses at stations,	14 895,19
For salaries and general management	6 919 27
For repair of buildings	2 25[illegible],43
For repairs of fence	1 092,61
For wood, (6739 cords), and other fuel consumed	19,414,72
For lost or damaged goods	805 12
For lost or damaged baggage	11 00
For injuries to persons	6,00
For legal expenses	147 93
For printing and stationery,	931,10
For general and miscellaneous expenses, (including taxes,)	3,465 49
	$133,255,[illegible]

On the whole, considering the distance run by trains, the expenses are below what they were last year.

"It must be borne in mind in reference to the expenses of operating this line during times of depression in business, such as have existed during the last year, that we cannot reduce our force by any reduction of the number of trains where we run only one train each way, daily. While on the whole, the expenses of the year have been diminished, there are a few departments in which they have comparatively been increased. As in maintaining the track and bridges, we have during the year, covered the long bridge at Lewiston with iron to preserve it from wet and decay, and put into the track of the Androscoggin and Kennebec Road about 4000 new cross-ties; and at the same time, raised portions of the track requiring it, on new gravel. On this part of the line, but few bars of new iron (106) have been necessary. On the Penobscot and Kennebec Road the track has required about 700 new bars of iron, or iron re-rolled. The rails, cross ties and bridges, are at such an age that quite an expenditure will be required annually for renewals."

The materials for repairs, wood, &c., on hand, are valued at about $37,000.

The Superintendent remarks that "no serious injury, accident or delay has occurred to any train during the year, and no person, either employee or others, has received any injury from our trains."

This remark is true. The trains have certainly been run with a regularity and safety unequalled, as we think, upon any other line at the same rate in this country.

The net earnings for the year, (over and above running expenses) are divided as follows: For the And. & Ken. Co. four-sevenths, $83,164,16; for the Pen. & Ken. Co. three-sevenths, $62,[illegible]34,35. Total $146 894,11.

The liabilities and Assets (aside from Bond account) are as follows as shown by the Treasurer, Joshua Nye, Esq.:

Liabilities	$185 043,46
Assets,	$1[illegible] 191,12

About $1,[illegible],900 in Bonds of the company, and $46[illegible],900 in stock, represent the present cost of the road.

DIRECTORS' REPORT.

Hon. John B. Dow, President, in the report by order of the Directors, says:

Since the connection of the Penobscot and Kennebec and the Androscoggin and Kennebec railroads, under the Lease of December 1, 1856, the two roads have been worked as one line, subject to the joint management of all. The experience of the past year and a half shows the arrangement to be beneficial to both companies. It gives greatly increased facilities to the public over the whole of the line, while at the same time the business can be done and the property of the companies maintained at less expense than if they were separately managed.

Nothing has been expended not deemed necessary to maintain the road bed, bridges and structures in efficient and safe condition; and on the whole, we believe that the operating expenses have been kept as low as they can be expected to be, considering the length of the line operated, and the distance run by the trains, and the condition in which the road and its equipments have been kept.

In the traffic returns, your Directors regret to say there has been a very great decrease. So great a depression in the business of the country as has existed during most of the last year has rarely been experienced, and in common with others this corporation has suffered.

Starting with a floating debt at the close of the year ending May 31, 1857, of $97,916,26, we find at the close of the year ending May 31, 1858 a floating debt amounting to $85 043, 46, with assets nominally amounting to $10[illegible] 191,12, showing an increase of the indebtedness amounting to $8,128 20. The items of assets consist mainly of the stock in the Penobscot and Kennebec railroad Company, and Bonds of the Androscoggin railroad Company are not at present available.

That in any ordinary business of the country, having connection with the increase of population that may reasonably be expected upon its line, the road is capable of earning enough to pay the interest upon its bonds. With the traffic on the road of any one of the three years prior to that just closed the net earnings would have been more than sufficient to pay all its interest.

The hope which the Directors have for relief from the present embarrassment of the company, consists in a revival of the business of the country necessary to the road. That such will be the case they cannot doubt, tho' it may increase less rapidly than in former years.

[From our Correspondent.]

Publishers' Convention.

AUGUSTA, July 1.

The Publishers' Convention was not largely attended to-day.

It was organized by the choice of
John S. Pear, President.
Elisha Clark, Secretary.

At the time of writing, nothing of particular interest has been accomplished.

A Business Committee was chosen, consisting of Messrs. Eaton, Joseph A. Homan, Nelson Dingley, Jr., E. Rowe and John H. Lynde, to report what is necessary to be done to protect the interests of the newspaper press in Maine.

Something definite will be done this afternoon in relation to foreign advertisements and newspaper agencies.

There are three Douglas democrats in the Maine legislature and these, with the republicans, have got up resolutions denunciatory of the administration and laudatory of Senator Douglas and Seward. This would indicate that the democrats wish to nominate in this legislature of Mr. Seward's successor, for the term commencing next March, since the administration democrats will hardly care to support him, and the republicans do not indicate a disposition to do more than praise him, hoping, probably, by waiting till next year to supply him with one of his own number.

SINGULAR ACCIDENT.—On Sunday evening a man named Reuben Burke, employed at the club stable on [illegible] street, E. Boston, fell out of the front window in the upper part of the building, and went upon the head and shoulders of Mr. John P. Barker, who happened to be passing at the moment. Mr. Barker was seriously injured by the weight of the fall, while B. escaped with a very slight shaking up."

It is not the tale of about mammoth strawberries" on the side of Uncle Sam's farm. One has lately been produced in California, *half a foot* in circumference—and the papers out there lie awfully.

TELEGRAPHS OF THE WORLD.—The following table shows the number of miles of telegraph lines in the world:

	Miles
America,	45,000
England,	10,000
France,	8,000
Germany and Austria,	10,000
Prussia,	4,000
Russia,	5,000
The rest of Europe,	7,000
India,	5,000
Australia,	12,000
Other parts of the World,	500

Total length of telegraph lines, 107,500

The number of messages passing over all lines in the United States is estimated at about 4,000,000 per annum.

THE FORTUNE OF A SELF-MADE MAN.—A boy worked hard—early for a quarter of a dollar. With the quarter he bought apples, and took them to town, and sold them on the street for a dollar. With the dollar he bought a sheep. The sheep brought him a lamb, and her fleece brought him her dollar. With this dollar he bought another sheep. The next spring he had two sheep, two lambs and [illegible] sheep. Three fleeces he sold for three dollars and bought three more sheep. He now had six, with a fair prospect. He worked where he could opportunity, for hay, corn and oats, and wintering the sheep. He took the choicest pasture, and each had a flock. The wool enabled him to buy a pasture for them, and by the time he was twenty-one he had a fair start in life and all from the quarter he earned in one day.

Surveyor's Office, July 1st, 1858.

FIRES IN THE WOODS. The heat and dryness of the weather, and the high winds which have prevailed for a day or two past, have caused much damage by fires which have spread from clearings in this vicinity. On the upper part of Essex street four or five miles from this city, on the woodland of Messrs. Washington Temple, Hiram Norton, Mr. Colby, the Messrs. Colburn and others the fire was running extensively yesterday and day before. Mr. Temple, we learn, has had a hundred cords of wood burned, and the fire has also done much damage to his woodland.

[Since writing the above, we have visited the locality where the fire is raging, and found the damage to be very great. Yesterday evening (Thursday,) the fire had reached on Essex street as far down as the woodland of Mr. Mark Mills and Mr. Rufus Prince. Across their lots, 200 or 300 acres in extent, it was running before the strong wind with great rapidity. To the north and east of this locality the fire was also raging. It was within a quarter of a mile of the McQuestion mill at Push aw, where Mr. Pitman has two or three hundred cords of wood piled. The barn near by it was thought would be burned last night, and probably the wood also.

The inhabitants many of them fighting the fire all night.

Several hundred acres of valuable woodland have already been burned over, and cord wood burned so far as we could learn as follows:

Washington Temple, about 100 cords; Mark Mills, 75 cords; Reuben Bigley about 40; Mr. Moore, 31; Mr. Lord, 25; Mr. Colby 15; Mr. Sawyer, 5; Mr. Prince, some wool and oats, with some other losses.]

DROWNED. Phineas W. Cook, of Presque Isle, aged 20 years, was drowned at that place on Saturday afternoon, while bathing.

The Aroostook Pioneer says that Messrs. Allen and Pratt of Letter G have fifty-eight acres of land sown to wheat, and that it looks finely.

Kinney and Davis, the Portland escaped prisoners, had not been retaken up to Wednesday evening. The Sheriff has offered a reward of $100 for their capture.

NARROW ESCAPE. The house of Mr. Hillman, on the Hampden road caught fire on the roof during the blow Wednesday afternoon, but was saved by the exertion of those who were in the vicinity. A bunch of shingles repairs all damage.

We understand that in some of our Boy's Schools, the Declaration of Independence will be read, and some extracts from Patriotic Speeches will be spoken, on Saturday morning July 3d.

FATAL ACCIDENT. We learn that a young man named William Souther, about 24 years old, was killed on Wednesday afternoon in the town of Stetson, by a tree falling upon him while at work falling trees. He lived about fifteen minutes after the accident. He belonged in Levant, where he leaves a widowed mother of whom he was the chief support.

"The Fourth" will be celebrated at Rockland on Monday, by appropriate ceremonies and a turn out of the military companies of that city. The Belfast companies are invited.

In addition to the damage already recorded by the great thunder storm of June 24th we see it stated that the dwelling house of Mr. Daniel Hitchcock in Damariscotta was somewhat injured in the roof and a large portion of the glass broken out, and that in Alna the barn of Mr. John Erskine, with 20 tons of hay, was burned.

Stillman B. Allen, Esq., of Maine, is appointed Clerk of the U. S. Navy Yard at Kittery, vice William Hammond, Esq., removed. The salary is $1200.

GARDINER FLORAL SOCIETY.—This Society, which for several years past, has given very successful shows of plants and flowers, held a meeting on the 15th ult. and elected the following officers for the ensuing year:

President—Mrs. Julia T. Warren.

Vice President—Mrs. Wm. Richards.

Secretary and Treasurer—Mr. J. D. Warren.

Standing Committee—Miss Christiana Swan, Mrs. Robert Williamson, Mrs. George Cook, Mrs. Charles Danforth, Mrs. Peter Grant, Mrs. Joshua D. Young, Mrs. J. W. Hanson, Miss Eliza Bl[illegible], Mrs. Eliza Byram, Gardiner; Miss Elizabeth Eaton, Augusta; Miss Lucy Emmons, Hallowell; Rev. J. W. Hanson, Gardiner; F. Glazier, Jr., Esq., Hallowell.

RETURNED CALIFORNIANS.—Messrs. Daniel B. Ross, Albert Farrington, William Grover and Leander Wade all of this town, returned home by the last steamer.—*Skowhegan Clarion.*

CROPS AT THE EASTWARD. The *St. Croix Herald* says that the crops of all kinds present a promising appearance. Potatoes have advanced amazingly during the last fortnight and in many fields they are on the verge of blossoming. The grain crop bids fair to be abundant.

ACCIDENT.—Mr. Elijah G. Hall was thrown from a cart, in this town on Tuesday last, and struck his back on the top of a post, cutting a gash some four or five inches in length, and laying bare the back bone. The wound was dressed by Dr. Weber, and is doing well.

Skowhegan Clarion.

During the past fortnight several hundred persons have passed over the railroad to Princeton, and the locality is daily growing in favor as a summer resort. On Wednesday there were about 75 passengers by the down train in the evening. There were also a lot of lumber on the same train.—*St. Croix Herald.*

DROWNED.—Two young men, brothers, by the name of Gordon, residing in Embden, were drowned in the Seven Mile Brook, about five miles above Anson village, on Friday last. One of them went into the water to bathe but being unable to swim, got beyond his depth. Another young man, who was a good swimmer went to his aid, and had succeeded in nearly getting him on shore, when the two were discovered by a brother of Gordon on the shore, who could not swim, but who in the excitement of the moment, jumped into the water, and seized upon both those that were then in. The one who could swim was compelled to let them both go, in order to save his own life. The bodies were recovered and interred on Saturday last.—*Skowhegan Clarion.*

New Publications.

WAVERLEY NOVELS.—HOUSEHOLD EDITION.—Boston, Ticknor & Fields.

"*St. Ronan's Well*" in two volumes, compose the issue for July of this beautiful edition of Scott's Novels. This story was among the last of the great novelist's work, and is in some respects of a different character from the romances of the Waverley series—although equally interesting and equally abounding in strong and graphic pictures of nature and of life. It is a drama of the (then) modern life at a famous mineral spring, near the border where both divisions of the British isle were represented among the fashionable guests.

The Bangor agents for this edition are Messrs. Bugbee & Co.

WILDFLOWER: By the author of "The House of Elmore," "One-and-Twenty," &c. New York, R. M. DeWitt, 1858.

This is an English novel of a high degree of literary merit,—approaching in purity and strength of style to the works of Charlotte Bronte, which have well been pronounced equal to any in the English language. The author of the work now under notice is apparently another of those rarely-gifted women who have within a few years conferred so high honor upon the sex and shed so great a lustre upon the walks of literature both in this country and our father-land. We think she is destined to achieve a brilliant reputation in the world of letters. The London press speaks in flattering terms of her former as well as her present work.

For sale by Bugbee & Co.

LADIES' HOME MAGAZINE for July contains 4 illustrations and about twenty-five articles. Among the contributors are Virginia F. Townsend, the associated editor with T. S. Arthur, Wm. M. Briggs, Virginia DeForest, Julia A. Barber, Ellen C. Lake, Almena C. Saunders. This Magazine is offered at $2 00 a year in advance. Address T. S. Arthur & Co., Philadelphia.

MERRY'S MUSEUM for July contains choice reading matter for the young people, and very attractively illustrated. New York: J. N. Stearns & Co., publishers. Price $1 per annum. This excellent magazine now unites with itself the Schoolfellow and Woodworth's Cabinet.

Governor Morrill's Speech at Augusta.

The following abstract of the remarks made by Gov. Morrill at the Republican State Convention is furnished by a reporter of the Boston Traveller:

"He embraced with alacrity the opportunity to meet the Convention and to tender his grateful acknowledgments for this renewed expression of their confidence. Not insensible to the elevation of his position, he accepted it, aware of its responsibilities. In the general purpose of the Convention he expressed his hearty concurrence, and his purpose of cordial co-operation. I sympathize (said the Governor) with your sentiment of attachment to our beloved State and its interests, and your desire to make it that prosperous Commonwealth for which it is fitted, and shall always co-operate in all measures calculated to stimulate its industry and develop its resources. Never unmindful of our allegiance to the National confederacy, our immediate and most urgent duty is to the State. There can be no real independence so long as the State looks for favor or support from abroad—no substantial prosperity except from the people. The law of success with the States, as with men is self-reliance. Agriculture, commerce, navigation, and the arts—to develop and stimulate these is to consult the highest interest of the State. I cannot forbear an expression of sympathy for that sentiment of devotion to the country, which is the foundation of the Republican party of the nation. Never was it a more imperative duty to see that in the great struggle for free labor against slavery, the influence of each State shall be on the right side. Whatever doubts may heretofore have been felt as to the purposes of the government, there can be no doubt now that it has entered upon a career incompatible with the best hopes of the people and the welfare of the free States, whose fundamental element of progress is free, untrammelled, fully compensated labor.

The repeal of the Missouri Compromise, the complicity of the Government in the efforts to plant slavery in Kansas, the dicta of the Federal Judges that the Constitution guaranteed property in slaves, the declaration of the President that slavery exists in Kansas under the Constitution, the efforts to force on the people of that territory a constitution which they never framed or assented to—all show to what depths the government has descended, and how wide is its departure from the policy of the fathers of the country. While by the willingness of the Executive department slavery has been carried into Kansas, the opinion of the Supreme Court would carry it into the country at large, so that the practical question is whether there shall be servitude outside of the slave States. The country began with the policy of limitation—now the policy is to give slavery free play. Once the country was united in limiting it; now, it is divided. The slaveholders and the slaveholding states, backed up by government, are for slavery; but the people, God be thanked, are opposed to it. Once it was national, patriotic, and at any rate constitutional, to limit slavery; now it is unpatriotic, sectional, and unconstitutional. For half a century no man doubted the power of Congress over the territories; every man held that slavery had no rights outside the local law, now it is held that neither Congress nor people can stop its extension. Our glory once was in *free and compensated labor*; now it is maintained that free laborers are the "mud sills" of society, and that slavery is the corner stone of the Republican edifice. The government is fully committed to slavery extension, slavery by and under the constitution, and slavery above and triumphant over Congress and the people. And Lecompton is the test. Will patriotic and sensible men shut their eyes to the danger of such a wide departure from the original principles of the government, or will they unite to put down a policy which inverts a barbarous institution with power and prerogatives above the people? I know the strength of party attachment. I honor as much as any man, party fidelity but dare any man insult high Heaven by saying that he will maintain party at the expense of right? Will any man deny that it is his duty to break the bonds of party, and trampling them under his feet, assume the attitude of an independent citizen? You find a party doing violence to the constitution, fostering a spirit of corruption and abuse, plunging into extravagance and rushing on to Bankruptcy. What is the duty of the patriot? Supinely to acquiesce, or vote according to your conviction like men? It is obvious that the free states must unite for the preservation of the constitution and Union, as well as for their own dearest rights. Slavery has got bodily possession of the government. It controls legislation. It not only tyrannizes over Kansas, but enters the Senate—thank God we meet it there—and with characteristic hatred of free labor hurls its thunderbolts against the fishermen. Then it proposes to repeal the navigation laws, and revive the American slave trade. So low has the government gone in the scale of demoralization that slavery now claims that the prospective prohibition of the slave trade was unwise and unjust, and I expect that when the question is submitted to the Federal Judges, they will declare it unconstitutional. So far has our degeneracy progressed, that convocations are frequently held in the south, in which the best method of dissolving the Union is openly debated. When Henry Clay was asked how soon he would be ready for dissolution, he replied—"Never, never, never!" But dissolution is now a common topic with a certain faction. Innumerable are the instances in which it has been threatened as the alternative, if the designs of the slaveholder should be resisted. It seems to me however, that these threats have at last become ludicrous if not ridiculous. We are now threatened that if we don't hold our tongues if we dont stop publishing tracts on the subject of slavery, the South will withdraw its contributions to the public charities and murder the churches. Do we not all agree that this policy is pernicious and dangerous, and that the time has arrived when we must unite and resist it? This is the condition on which you and I can have an undivided country to love and to serve.

Maine has taken her ground and will not soon be driven out. In both houses of Congress she has distinguished herself in defence of her rights, and in the contest—no, there is no contest about it!—in the annual election of this year, she trusts that the cause will suffer no detriment by your neglect.

LOOK BEFORE YOU KICK.—A minister, while on his way to preach a funeral sermon in the country, called to see one of his members, an old widow lady, who lived near the road he was travelling. The old lady had just been making sausages, and she insisted on her minister taking some of them home. He objected on account of not having his portmanteau along. This objection was soon overruled, for the old lady wrapped them up in a rag and placed a bundle in each of the pockets of the preacher's coat. Thus equipped he started for the funeral.

While attending to the solemn ceremonies of the grave, some hungry dogs scented the sausages, and were not long in tracking them to the good man's overcoat. Of course this was a great annoyance, and he was under the necessity of kicking those whelps away. The obsequies at the grave completed, the minister and congregation repaired to the church, where the funeral discourse was to be preached.

After the sermon was finished, the minister halted to make some remarks to his congregation, when a brother, who wished to have an appointment given out, ascended the steps of the pulpit and gave the minister's coat a hitch, to get his attention. The divine, thinking it a dog having a design upon his pocket, raised his foot, gave a sudden kick, and sent the good brother sprawling down the steps.

"You will excuse me, brethren and sisters," said the minister, confusedly, and without looking at the work he had just done, "for I could not avoid it. I have sausages in my pocket, and that dog has been trying to grab them ever since I came upon the premises!"

Our readers may judge of the effect such an announcement would have at a funeral.

THE CORTES. A correspondent writing from Kingston, Ja., says—The slaver Cortes has been condemned in the Court of Vice Admiralty, and her stores ordered to be sold. She is a noble specimen of naval architecture, and a thorough clipper. While in charge of the prize crew, she ran eleven knots with ease "on a wind." It is supposed that she was captured early in the morning before the sea breeze had set in, as she could at any time with a fair breeze sail round any gun-boat in the British service. Her hull is long, low, and waspish, painted black, and her masts are tapering and rakish. Her whole appearance is symmetrical and graceful, and the fittings of her cabin are chaste and complete. The Cortes will be taken into her Majesty's service in the place of the Cuba, the slaver captured by Lieutenant Stubbs last year, which has been condemned as a sea boat.

We learn that Hon. Shepard Cary, at a caucus in Houlton, recently denounced President Buchanan in strong language. He said the President never was a democrat, and that he never had a drop of democratic blood in his veins. That last assertion is borrowed from an old Federalist. Cary ought to rub the President down with his "Thistle Exterminator."—*Eastport Sentinel.*

DROWNED. In Richmond, Me., during the violent shower of Thursday afternoon, a small boy was drowned, it is supposed, as the last seen of him he was in the river, since which nothing has been seen of him.

SPECIAL NOTICES.

CARD.

The members of the Charleston Brass Band would tender our sincere thanks to the Ladies of Charleston, for their generous efforts in preparing and furnishing the tables at the Levee and Complimentary Benefit given us on the evening of June 15th, to the citizens of the place for their unwearied exertions to render the occasion interesting and profitable, and to our friends for their liberal patronage, whereby the sum of $101 was raised and appropriated to our aid.

We beg leave to assure those who have thus expressed their regard, that their favors are duly appreciated, and will be long remembered by us.

Per order of the Band,

A. HOLDEN,
M. B. BRAGG, } Committee.

Fencing Academy!

Monsieur Merquis,
Professor of the Art of Fencing,

TAKES pleasure to offer his services as a teacher of this noble Art, in all its branches, sword or foil.

The strengthening and beneficial effects of this manly exercise are acknowledged by all eminent physicians as developing muscular power, and enlarging the breathing faculties of the chest.—Every young man ought to avail himself of this opportunity to get acquainted with the handling of the sword, and at the same time to expand his vital powers and increase his energy and self-confidence.

TELEGRAPHIC
TO THE DAILY WHIG AND COURIER.

From Washington.

WASHINGTON July.

New Orleans papers of the latest dates due by the mails, state that the owners of the steamship Catawba have arranged to carry the mails and passengers for Havana taken off by a steamboat, to avoid her being quarantined at New York.

A contract has been concluded by the Post Office and Navy departments with the Pacific mail steamship Co., for carrying the mails between Astoria and Panama, at $[illegible] per annum. Mr. W. L. Davidge has telegraphed to the Post office department that he has made an arrangement with the Tehuantepec Co., under the extension to the 1st October, 1858.

The entire territory of New Mexico has been constituted a new land district. Mr. William Pelham has been appointed surveyor general, and the lands will soon be brought into market, and opened to pre-emption. The land office has information of the immense richness of the soil in precious metals, particularly the Mesilla Valley.

Baron De Wetterstedt, Minister from Sweden and Norway, has presented his credentials.

J. S. Wilson is acting commissioner of the land office, in the absence of commissioner Hendricks, who has gone to Indiana.

Lieut. Gen. Scott has left Washington for his head quarters.

Christopher Graham has been appointed receiver of the public moneys at [illegible], Minn., and Joseph Hopkins to a similar office at Marysville, Cal.

Various Items.

BUFFALO, July 1.

The railroad convention adjourned, sine die at 9 o'clock, after passing the following resolution:

Resolved, That the New York and Erie Railroad be requested to advance on its passenger rates to the prices prior to the recent reduction, which rates shall remain unchanged till the 15th of July next, and that a committee of three be appointed by this convention to inquire into the difficulties between the Erie and Central roads.

Mr. Moran, President of the Erie road protested against the action of the convention, declaring that he would not be bound by it, and that the Erie road would endeavor to work for its own interest, independent of the action of the convention. Although the Lake Shore, Cleveland and Toledo, Cleveland, Columbus and Cincinnati, and other roads were represented in the city, their delegates took no part in the proceedings of the convention, and consequently are not bound by its action.

The committee of conference reported their opinion that positive evidence has been shown of a violation on the part of the Erie and Central Railroads of the contracts formerly existing between them, and that the recent reduction in passenger fares on the New York and Erie road was caused by unfounded reports of other roads, and therefore recommend to these roads to amicably adjust the difficulties between them, and restore remunerative rates and good feeling.

ALBANY, 1st.

The receipts at tide water for the fourth week of June show an increase over the same period of last year, as follows—flour, 61,447 bbls; wheat, 246,[illegible] bush do. corn, 71,223 bushels. The total increase in receipts of flour to the present time is 53[illegible],431 bbls.

NEW YORK, July 1.

The Evening Post says that the Collins steamers have been sold in France for $1 000,000.

SAVANNAH, June 30.

The Republican has a letter from Tampa, of the 24th instant, reporting the hanging on the night previous, of four prominent citizens by the Florida vigilants. The statement is considered questionable.

New York Markets.

NEW YORK, July 1.

Flour, State and western without change—Superfine State 3,75 a 3,85; extra State 3,90 a 4,05; round hoop Ohio 4,55 a 4,65; common to good extra Western 3,90 a 4,40. Southern steady—Mixed to good 4,45 a 4,75; fancy and extra 4,80 a 6,00. Canada—superfine nominal; extra 4,10 a 5,10.

P[illegible]

Mr. Perry Davis—I feel it to be my duty to bear testimony to the efficacy of your Pain Killer. I have used it for years for complaints of the stomach and bowels. I had a very severe attack a few days ago of the same, and such a pain in my back that I [illegible] nights that I could get no rest. [illegible] and got a 25 cent bottle of the "Vegetable Pain Killer." [illegible] it, and bathed according to directions, and one application has removed all the pain, and I am able to write to-day, though with a trembling hand. The application was made last night about 8 o'clock, and I had a sweet night's rest. I have recommended it to my friends, and I have [illegible] a good deal, and it has given universal satisfaction where it has been used. [illegible]

Yours gratefully, L. [illegible]

TELEGRAPHIC.

TO THE DAILY WHIG AND COURIER.

From Washington.

WASHINGTON, July.

New Orleans papers of the latest dates due by the mails, state that the owners of the steamship Catawba have arranged to carry the mails and passengers for Havana taken off by a steamboat, the steamer being quarantined at New York.

A contract has been concluded by the Post Office and Navy departments with the Pacific mail steamship Co., for carrying the mails between Astoria and Panama, at $ per annum. Mr. W. Davidge was telegraphed to the Post office department that he has made an arrangement with the Tehuantepec Co., under the extension to the 1st October, 1858.

The entire territory of New Mexico has been constituted a new land district. Mr. Wm. Pelham has been appointed surveyor general, and the lands will soon be brought into market, and opened to pre-emption. The land office has information of the immense richness of the soil in precious metals, particularly the Mesilla Valley.

Baron De Wetterstedt, Minister from Sweden and Norway, has presented his credentials.

J. S. Wilson is acting commissioner of the land office, in the absence of commissioner Hendricks, who has gone to Indiana.

Lieut. Gen. Scott has left Washington for his head quarters.

Christopher Grasser has been appointed receiver of the public moneys at Alexandria, Minn., and Joseph Hopkins to a similar office at Marysville, Cal.

Various Items.

BUFFALO, July 1.

The railroad convention adjourned sine die at 9 o'clock, after passing the following resolution:

Resolved, That the New York and Erie Rail road be requested to advance on its passenger rates to prices prior to the recent reduction, which rates shall remain unchanged, till the 10th of July next, and that a committee of three be appointed by this convention to inquire into the difficulties between the Erie and Central roads.

Mr. Moran, President of the Erie road protested against the action of the convention, declaring that he would not be bound by it, and that the Erie road would endeavor to work for its own interest, independent of the action of the convention. Although the Lake Shore, Cleveland and Toledo, Cleveland, Columbus and Cincinnati, and other roads were represented in the city, their delegates took no part in the proceedings of the convention, and consequently are not bound by its action.

The committee of conference reported their opinion, that positive evidence has been shown of a violation on the part of the Erie and Central Railroads of the contracts formerly existing between them, and that the recent reduction in passenger fares on the New York and Erie road was caused by unfounded reports of other roads, and therefore recommend to these roads to amicably adjust the differences between them, and restore remunerative rates and good feeling.

ALBANY, 1st.

The receipts at tide water for the fourth week of June show an increase over the same period of last year, as follows—flour, 61,447 bbls; wheat 246,084 bushels corn, 11,533 bushels. The total increase in receipts of flour to the present time is 331,436 bbls.

NEW YORK, July 1.

The Evening Post says that the Collins steamers have been sold in Boston for $1 000,000.

SAVANNAH, June 30.

The Republican has a letter from Tampa, of the 24th instant, reporting the hanging, on the night previous, of four prominent citizens by the Florida vigilants. The statement is considered questionable.

New York Markets.

NEW YORK, July 1.

BANGOR DAILY WHIG AND COURIER.

STEAMERS.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York and Portland*, as follows: Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe, and comfortable route for travellers between New York and Maine.

PASSAGE $5,00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For freight or passage apply to

EMERY & FOX, Brown's Wharf, Portland. H. B. CROMWELL, Pier 12 N. River, New York.

Portland, Apr. 2, 1858.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving entire Through Tickets including all the charges.

Transit made in *four hours, entirely by day* and thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over snags and shoals!

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus ensuring passengers by the Mail Line a *sure* and *direct* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the agent at Panama and tickets thus signed can be obtained of the authorized Agents for the Atlantic and Pacific Mail Steamship Company and thirsty.

C. L. BARTLETT, Agent, No. 16 Broad Street, Boston.

August 1, 1857 ly

Port and to Boston.

Summer Arrangement

The Steamers LEWISTON, Capt. Geo. Knight, and FOREST CITY, Capt. F. A. Prince, will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin,	$1.25
Fare on Deck,	1.00

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families, and travellers are reminded that by taking this line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

LOOK.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Hancock, which has been received with so much favor, and taken the first premium wherever exhibited, has introduced an improvement into the Bee Hive, and is now prepared to make the same in connection with the Davis Patent, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It offers all the requisites for the profitable maintenance of the apiary, providing for ventilation at all seasons of the year—room for the easier and feed of the bees—convenience for the removal of excrement, and the proper separation of the swarms, and guards by for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in the size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees with the new hives.

For hives, individual rights, &c., address

A. S. TORREY, Fifth street, Bangor.

American & Foreign Patents.

R. H. EDDY, Solicitor of Patents,

(*Late Agent of the U. S. Patent Office, Washington under Act of 1837*.)

76 State Street, opposite Kilby-st., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents R. H. Eddy, Esq., of Boston, did business at the Patent Office as Solicitor for procuring patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,

Late Commissioner of Patents.

[From the present Commissioner.]

"August 27, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,

Com'r of Patents.

To Mechanics, Inventors, and Manufacturers.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that, in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858; said premiums to be distributed as follows:—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $90; 7th, $80; 8th, $70; 9th, $60; 10th, $50; 11th, $40; 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents *extra* on each year's subscription to pre-pay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates—Five Copies, for Six Months, $4; Five Copies, for Twelve Months, $8; Ten Copies, for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months $28.

For all Clubs of Twenty and over the yearly subscription is only $1 40.

The new volume will be printed upon fine paper with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work* and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 fine engravings, and notices of American and European improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid, fearless in combatting and exposing false theories and practices in scientific and Mechanical matters and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

MUNN & CO., Publishers and Patent Agents, 128 Fulton st., New York.

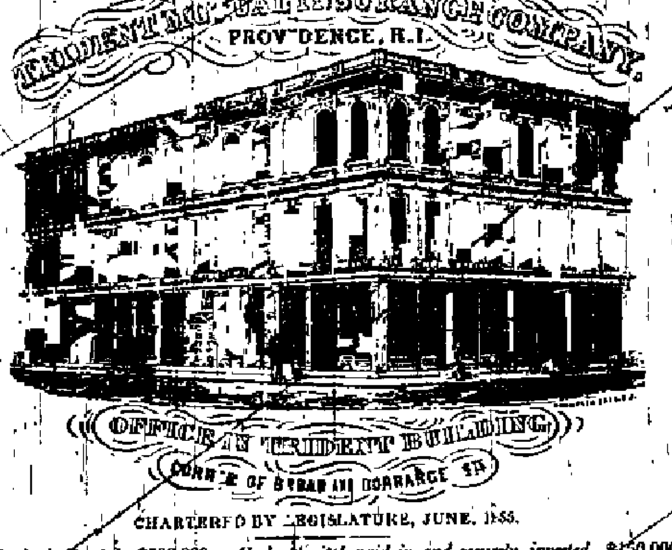
FIRE AND MARINE INSURANCE.



TRIDENT MUTUAL INSURANCE COMPANY
PROVIDENCE, R.I.
OFFICE IN TRIDENT BUILDING
CORNER OF BROAD AND DORRANCE STS

CHARTERED BY LEGISLATURE, JUNE, 1855.

Authorized Capital, $500,000. *Cash Capital paid in and securely invested*, $150,000.

OBED P. MILLER, Secretary. WARD COWING, President.

BOARD OF DIRECTORS.—Ward Cowing, William A. Bradford, Samuel L. Darling, Edward B. Peirce, George W. Hall, F. G. Gardiner, Obed P. Miller, Thomas A. Doyle, William B. Ryder, George Cleveland, Philip Ryder.

THIS Company Insures against Loss or Damage by Fire, on Stores, Merchandise, Dwellings, Mills, Manufactories, Hotels, &c.; also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses Promptly and Equitably Adjusted and Paid.

All premiums are made specie when Policies are issued, and are to be prepaid in money; and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System, which precludes the possibility of an assessment, are very obvious.

The Board of Directors have authorized the issue of Policies on country risks, detached on very low terms.

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost fairness and liberality in all their dealings.

Policies granted and issued to parties effecting Insurance, at once without delay, by the undersigned, at his office.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dries, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Manufactured by D. C. LINCOLN, *Bloomfield, Me.*

may17 E. F. DUREN.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures *costiveness*.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two teaspoonfuls will always relieve *Sick Headache*.

Only one dose immediately relieves *Colic*, while

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera*.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures *Chronic Diarrhœa* in its worst forms, while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy* by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague, Chill Fever*, and all Fevers of a *Bilious type*. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

DR. SANFORD, Proprietor, No. 345 Broadway, N. Y. Retailed by all Druggists. Sold, also, by B. F. Bradbury, Bangor. June 9 '58 d&wly

OLDTOWN HOUSE,

Oldtown, - - - - - Maine,

BY MRS. HARRIET STINSON.

The undersigned very respectfully informs her friends and the public generally, that she has lately refitted and refurnished the *Oldtown House*, and is prepared to accommodate all who may favor her with a call. Every attention will be bestowed upon guests and travelers, who are assured that for a brief or long stay, they will find their wants and comforts always cared for. The table will always be supplied with the best the market affords, and all the luxuries of the season.

In connection with the above House is a large and well finished hall, suitable for Dancing parties.

Connected with the House is one of the largest Stables in Oldtown, with the best accommodations for horses and teams, which is under the care of a faithful hostler.

Parties from Bangor, or other places, can be accommodated on reasonable terms, on giving a short notice. HARRIET STINSON.

Bangor, July 28, 1856

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. Newcomb, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other papers now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

july23

Room Papers.

190 DIFFERENT PATTERNS—from 4 cts. to $3 per roll, for sale by O. H. PATCH.

ml8

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good, but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond anything which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint: see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS, and mark the effect; see the scabs fall from his body; see the new fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Sidache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. [illegible]
